

NOTES FROM A CITY EDITOR'S DAYBOOK—As is customary in political campaigns there are those few irresponsible or misinformed individuals who get loose with the truth.

Currently, in connection with the campaign for Lee county Republican committeemen, a story is being propagated that precinct committeemen get paid and that no one should be a candidate for two publicly paid jobs. In one particular case there is apparently a deliberate attempt to injure the candidacy of a highly-regarded public official.

OF COURSE, the truth is that precinct committeemen are not paid a salary in connection with their posts. A committeemen's duties deal mainly with party loyalty and welfare. He is supposed to get his party members registered so that they are legally qualified to vote, and he urges his party members to the polls at primary and general elections.

PROBABLY MORE important, he is also supposed to represent the will of the party members in his precinct and when called into county convention for the endorsement of candidates, he is supposed to voice the intentions of the majority of the voters in his precinct.

A GLARING example of the frustration of the will of the majority of the voters was seen a year ago in Lee county when the Republican county committee refused to recognize the wishes of the great majority of Lee county Republicans in ignoring the candidacy of Republican Robert L. Bracken for circuit judge.

THE SITUATION righted itself, however, when Republican Bracken gained the Democratic nomination and was elected by a rush of Lee county Republicans who crossed party lines to vote for the man of their choice.

Judge Bracken carried Lee county by more than 1,600 votes, carrying every precinct in Dixon and all but a few in the county. That proved without question that a large number of Republican precinct committeemen did not properly represent the will of the voters in their precincts.

While a precinct committeemen post is non-salaried and perhaps enjoys a low status on the political totem-pole, it is nonetheless important that voters elect men of integrity. They should be loyal to the party and men who will not embarrass or injure the reputation of the party by their official conduct. One must also remember that the chairman of the county central committee must be a member of the committee.

BUT DON'T ALLOW anyone to tell you that a precinct committeemen gets a salary. He is the most important cog in the party machinery because he represents the grass roots of his party and must honestly portray the thinking and the policies of his constituents.

Rockford ITU Seeks Aid of Other Unions

ROCKFORD, Ill. (AP)—AFL printers engaged in a labor dispute with Rockford's two daily newspapers today offered "full strike" benefits to members of other unions employed on the newspapers if they do not cross the printers' picket lines.

Spokesmen for the International Typographical Union said that as far as they know the offer is new in labor relations and never has been made before. In Chicago, the American Newspaper Publishers Association said this is the first time it has heard of such an offer in a labor dispute.

About 70 ITU members continued a work stoppage which began Monday on the Morning Star and the afternoon Register-Republic.

Each newspaper, properties of Rockford Consolidated Newspapers, Inc., continued to publish.

Heavyweight Title Bout For June?

NEW YORK (AP)—The long delayed return title bout between heavyweight champion Jersey Joe Walcott and former champion Ezzard Charles was all but arranged today with the fighting slated for Philadelphia's Municipal stadium on Monday, June 2, it was learned.

International Boxing Club officials would neither confirm nor deny the report. However, they scheduled a press conference for Monday in Philadelphia.

Charles was flattened by Walcott in the seventh round at Pittsburgh on July 18, 1951.

SURVEY SHOWS TAFT LEAD

Foes Burn Farm Homes of 'Big Earl' Shelton

Little Egypt Feud Resumes; See Reprisals

'Mystery' Blazes Seen as Answer to Request for Guards

FAIRFIELD—(AP)—Mystery fires today destroyed Big Earl Shelton's last building on his big hill top farm and the vacated home of Ray Walker, former henchman of the Shelton prohibition era gang. Sheriff Elmer Brown said the fires were apparently reprisals because Shelton had indirectly asked protection by the Illinois governor.

Three of Shelton's brothers have been slain from ambush since 1947, and Big Earl and other kinsmen have been wounded in a series of violent outbreaks. Surviving Sheltons have left this southeast Illinois area and Walker had left before their exodus.

Bar Big Earl
"This is just proof," the sheriff said, "that they are not going to let Big Earl come back and operate that farm."

Brown said he did not know who "they" are. Brown added, however, that an "enemy" Shelton was quoted as fearing had been on a trip to the southern states for some time.

The sheriff himself discovered the Walker home ablaze as he was on his way to look at Shelton's fire-razed tenant house. He said the two fires, about a half mile apart, possibly started about the same time early today. He said a door of the Walker house was propped open for "a good draft" on the blaze, started in the middle of the living room floor.

Loss Not Set
Amount of loss was not available but Walker's home was estimated as worth possibly \$8,000 or more. Brown said neither was insured.

No firemen were called and no attempt was made to put out the fires.

Neighbors reported they saw the vacant two-story tenant house on Big Earl's hill top farm burning about 5 a. m. They did not report seeing any one near it. On different nights, Big Earl's \$35,000 home was burned after a tin can bomb routed Earl and his wife, Earline; his big barn was burned and fire destroyed the home of his aged, widowed mother, Agnes.

Ranks Thinned

Since 1947, a bloody vendetta has thinned the ranks of the once powerful Shelton clan. Three Shelton brothers—Carl, Bernie and Roy—have been slain from ambush. Brothers Earl and Delta fled their big Wayne county farms without leaving forwarding addresses. Gone too, after many unsolved shootings and fires, are the only other blood members of the clan.

Big Earl, who figured in prohibition era gang warring that took a reported 40 lives, counting two mayors and other lawmen, returned to the limelight this week.

Farm Organizations Differ on \$7.9 Billion Foreign Aid Plan

WASHINGTON—(AP)—One national farm organization urged a \$1,900,000,000 cut today in President Truman's \$7,900,000,000 foreign aid program but another supported it in full.

The American Farm Bureau Federation, largest of the national agriculture groups, proposed the 25 per cent slash in testimony before the senate foreign relations committee.

The National Farmers Union said the full sum asked by the president should be approved "without crippling amendments and without reductions."

Private Testimony
Their statements were offered as the senate committee held a one-day session to hear private witnesses. Up to today only two ranking administration officials had testified, all favorably.

Seventeen witnesses representing farm, labor and church groups were scheduled to appear today.

Farm Bureau President Allan B. Kline said in his prepared statement that "economic aid should have greater emphasis than military aid."

So, he said, he is suggesting military help for Western Europe in the program be cut by \$1,145,000,000. "Defense support" or economic aid, he said, should be hiked by 500 million.

MOTHER REFUSES TO GIVE UP HOPE—Mrs. Josephine Pichler of Cleveland, Ohio, kneels beside her five-month-old son, Robert Joseph. The child has been ill with a spinal disorder since birth. Doctors say the disorder can't be cured by surgery and that there is little hope for the boy. The father, Joseph Pichler, a laborer says his wages are eaten up by doctor bills and doesn't know how they can continue. The mother, her eyes red from sleepless nights, says she can't give up hope, but doesn't know where to turn.

Posse Traps, Slays Murderer Of Three on Nebraska Ranch

MERRIMAN, Neb.—(AP)—Nebraska ranchers' guns have settled the score for three of their neighbors shot down in cold blood yesterday.

On the ranch in the desolate Northern Nebraska sandhills yesterday, angry members of a posse fired bullet after bullet into a shed where 32-year-old Elaine Ellis lay clutching a shotgun.

Mortally Wounded
Finally they heard his muffled voice: "I'm through, come and get me." They dragged him out mortally wounded.

To officers who bent down to hear the dying man, Ellis gasped admission that he killed Mr. and Mrs. George Messenger and a neighbor, Deo Gardner, yesterday morning.

"Just the meanness in me," said Ellis.

Messenger, 28, was the operator of a 3,000 acre ranch five miles south of Merriman. He was killed early yesterday by a shotgun blast through the front doorway of his farm home. His wife, Elaine, 24, was wounded but reached a telephone and gave the alarm. Another shot killed her and wounded her 10-month old baby.

Kills Neighbor
Gardner, 50, and another neighbor, Cliff McDonald, had started for the Messenger ranch when they met the assassin. Gardner was killed by a pistol shot and McDonald wounded by a shotgun blast.

Ranchers and townspeople helped comb the almost roadless sandhills with planes, jeeps, cars and horses. A posse of more than 100 cornered Ellis in a shed on the Andy Anderson ranch about six miles from Messengers place.

DeKalb-Ogle Phone Workers Await Talks

With its tentative strike deadline only four days away, DeKalb-Ogle telephone operators and plant workers are still waiting for a possible settlement with the two county telephone firms in its demands for a less than 10 per cent increase and a union shop.

Last Monday the union, the Brotherhood of Electrical Workers, voted to strike April 1 if its demands were not met.

In January the union had made a request for a 15 per cent increase in wages and a union shop. Since then, however, it has asked for less. The present request was not announced.

Negotiations, according to one union official, are still going on.

Governor Tells Why He Balks At Presidency

Says He Owes Debt To Party Workers; Decision Hard One

SPRINGFIELD—(AP)—Gov. Adlai Stevenson of Illinois explained the reasons today why he does not want to be the Democratic candidate for president, and indicated that he will resist any efforts to draft him.

There is considerable evidence that Stevenson is President Truman's personal choice to succeed him.

Stevenson, in an interview with this reporter, declined today to discuss his last conversation with the president. From reliable Illinois sources, however, it was learned that he is under "very heavy pressure" to reverse his decision not to run for the presidency.

Not After Job

"I don't know what more I can do to make my position clear," Stevenson said. "I have repeatedly said I am running for reelection for governor of this state, and that is all. I am not after the Democratic nomination for president."

He gave these reasons for his position with respect to the presidency:

1. MEN—"I talked, wheedled and blackjacked a number of men into coming into this state government. For most of them, it meant a financial sacrifice as well as leaving their businesses. I don't feel now that I can walk out on my obligations to them after they have agreed to help me."

"Hard Decision"

2. PERSONAL INTERESTS—"I considered getting out of elective office some months ago. The decision to run for reelection in Illinois was a hard one. Having made it, I am not going through all that struggle again with regard to a totally different job."

3. PROGRAM—"My work here is not finished. That was, and is, the over-riding consideration with me." (He listed reorganization of state government, consolidation of the state pattern of higher education, highways, and streamlining as among the major objectives yet to be achieved.)

"Complete Chaos"

4. EFFECT ON THE ILLINOIS PRIMARY—"If I were to withdraw from this election now, there would be complete chaos here. I am not prepared to do that to the people supporting me."

Stevenson indicated that he would resist efforts to draft him for the Democratic nomination.

"I'll cross that bridge when I come to it," he said. "I think everybody knows my position now."

Stevenson gives every impression of complete sincerity.

Duty to Illinois

Stevenson says his first duty is to Illinois. He does not talk nor act like a man trying to get a presidential nomination with a flank maneuver from ambush.

He is, however, by his own definition, "an internationalist" strongly in favor of the present American foreign policy, especially in Europe.

His friends believe that, if that program were to be threatened by developments in this year's presidential election, he might change his present position.

Gruenther, Ike's Aide, Lauds Boss

WASHINGTON—(AP)—Gen. Dwight D. Eisenhower's chief of staff said today "you can't replace a man of the boss' stature without creating a great gap."

The remark by Gen. Alfred M. Gruenther was made at a Pentagon news conference shortly before he started on a return trip to Eisenhower's supreme headquarters in France.

Gruenther had appeared before senate and house committees in support of President Truman's \$7,900,000,000 foreign aid program, appearing in behalf of Eisenhower and the North Atlantic Treaty Organization command.

Pastor Dies

Rev. Lobaugh, Eldena Pastor, Dies in Home

ELDENA—(Special)—The Rev. James L. Lobaugh, 67, pastor of the Eldena and Kingdom Evangelical-United Brethren churches, died today in his home in Eldena.

Suffering from a heart ailment, he was found dead in bed by his wife this morning.

Rev. Lobaugh was born July 23, 1884, in South Dakota. He was trained for the ministry in Nebraska and was engaged in missionary work in that state before being assigned to the local church conference.

Before coming to the Eldena-Kingdom churches in June, 1951, he was pastor in Manhattan, Ill., Terre Haute, Ind., Westerville, Sterling, Diversey Park, Downers Grove and Pierce, Illinois.

He is survived by his widow; two sons, Harold, Sterling, and Kenneth, Gary, Ind.; and two grandchildren, Irvin, of San Diego, Calif., and Ruth Ann, Sterling, Ill. He was preceded in death by a daughter, Geraldine.

The body is at the Melvin funeral home, Dixon. Funeral arrangements will be announced.

22 Lee County Assessors Meet At Courthouse

Twenty-two county tax assessors met Friday morning in the county court rooms for the first half of an all-day meeting to discuss tax assessing with Lee County Treasurer Gilbert Finch.

In the afternoon session, it was expected that the group would set its standard assessment values for 1952.

The Dixon township assessor, A. C. Handell, also announced his deputy assessors. They are: Mrs. Marian Deets, who will be in charge of the office and Mrs. Norma Quest, Mrs. Mildred Reed and Lesley Prater, all field deputies.

Truman May Be Called on to Act Soon in Steel Labor Crisis

WASHINGTON—(AP)—President Truman, just returned from his Florida vacation, faced the prospect today of having to act soon in the steel labor crisis.

Negotiations between Philip Murray's strike-threatening CIO Steelworkers and big steel companies are in recess—with every indication they won't resume until the government clarifies its wage-price position.

A strike is now fixed for April 8.

The Wage Stabilization Board (WSB) claims its recommendations fit within the anti-inflation rules and Defense Mobilizer Charles E. Wilson contends they are "a serious threat" to economic stabilization.

Steel companies insist that if they are to put the WSB proposals into effect they must first get government approval to boost steel prices by \$12 a ton.

Any such price increase is being stoutly resisted by Price Stabilizer Elia Arnell. He fears it would open the way for price boosts up and down the line, causing a new burst of inflation.

Iowa Lawyer Found Shot Near Steward

Jury Rules Death Accidental From Shotgun Wound

STEWART—AN Iowa lawyer was killed instantly here yesterday as his hunting gun, with the safety catch unlocked, exploded as he was crawling under a fence on his brother's farm.

Emery Neftstead, 58, of Emmetsburg, Ia., was found after the two hunting dogs that had been with him returned alone to the farm house. The farm is located just east of Stewart.

His body was found by his brother, Howard, and a sister, Margaret, about 11:30 a. m. He had left to go hunting about 10 a. m.

Rule Accidental

At the inquest conducted by Lee County Coroner Robert Preston, the coroner's jury ruled Neftstead had died instantly from a gunshot wound near the heart.

He had been residing at his brother's farm since last May, recuperating from surgery.

He was born May 28, 1893, the son of Mr. and Mrs. Lewis Neftstead. His mother, of Stewart, is a survivor.

Survivors

Others survivors include his widow, Ella, a daughter, Barbara, two brothers, Ernest, Holcomb, Cyril, Stewart; and another sister, Mrs. Gladys Breckney, Des Moines, Ia.

Services, completed at the Under funeral home, Rochelle, will be held Monday or Tuesday in Emmetsburg. His widow is expected to arrive in Stewart Saturday and the body will be returned to Iowa Sunday afternoon.

Bill Stratton Moves Into Cook County

CHICAGO, (AP)—William G. Stratton, a candidate for the Republican governor nomination, today started a series of Cook county campaign talks.

Stratton, of Morris, is the present state treasurer. He came to Chicago yesterday after completing a downstate tour which touched 80 counties.

Stratton has charged that Democratic Gov. Adlai Stevenson "is no longer fit to be governor of Illinois."

"Stevenson's administration has been the most scandalous administration in the state," Stratton told a Peoria audience Wednesday, "because he is inexperienced in government and inept in judgment."

Sen. Kefauver Showing Gains On President

Newspaper Editors Feel Ohio Senator Has Primary Edge

MILWAUKEE—(AP)—A summary of reports from Wisconsin newspaper editors again indicated today that Senators Robert A. Taft and Estes Kefauver are leading in the race for delegates to be elected in the state's primary election next Tuesday.

It was the second Associated Press survey, and it showed the editors believe that Gov. Earl Warren, of California, has made gains on Taft in some counties in the race for the 30 Republican delegates.

Kefauver Stronger

Kefauver appeared to have strengthened his position against two separate slates, each claiming to represent President Truman in the contest for the state's 28 votes at the Democratic national convention.

A total of 35 newspapers participated in the second survey as against 45 in the first one. Of the 35, six have endorsed Taft. Stassen and Eisenhower have the endorsements of one each.

The comparative reports:

REPUBLICANS			
	Taft	War. Stas.	Und.
Last week	34	4	1
This week	23	7	4

DEMOCRATS			
	Trum.	Kef.	Und.
Last week	13	22	10
This week	9	23	3

The first survey was made before the Minnesota primary election, in which Gen. Dwight D. Eisenhower was given 106,000 write-in votes. His name is not entered in the Wisconsin primary, and write-ins are not counted influence.

Minnesota Influence
Nevertheless, a number of editors said the unexpected size of the Minnesota vote for Eisenhower had sharply affected sentiment in their communities.

The pattern of sentiment in Wisconsin may be more blurred at this point than it was a week ago, the result of:

1. The statement by Warren's delegate-candidates that they will vote for Eisenhower at the GOP nominating convention whenever it becomes certain Warren cannot win the nomination.

2. Harold Stassen's announcement that half of the number of Wisconsin delegates he may win will be permitted to vote for Eisenhower on the first ballot at the Chicago convention.

Child Dies In Home Fire

ROCK ISLAND, (AP)—Fire destroyed a house in Milan, a Rock Island suburb, today killing 2-year-old Karen Goldenzopf, daughter of Mr. and Mrs. Wesley Goldenzopf. The child's mother fled the house with her six-month-old son, David in her arms.

The father, an employee of the Rock Island arsenal, had left for work a short time previously. The cause of the blaze was not determined immediately.

Are You Searching For a Happier Home

Have you ever heard the statement, "Married men make the best husbands"? There are times when you wouldn't think so. It's easy to get the impression that everybody feels that the only thing wrong with marriage is husbands and wives—with, of course, dogs, cats, financial problems, and arguments with the neighbors thrown in.

Everyone wants a happy home! The strange thing is so few want to put forth any effort toward creating one. We can predict that those who come will reap benefits from Mr. J. M. Watkin's talk on

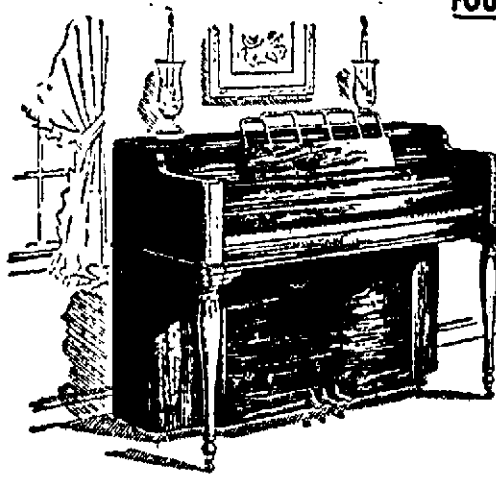

HOW TO MAKE MARRIAGE WORK The truly happier people will be those who visit the PERSONAL PROBLEM CLINIC

KIMBALL

Keyboard of the Nation

FOUR EXCLUSIVE TONE-TOUCH FEATURES

- 1 The Kimball Laminated Toneboard—made of aircraft plywood, it will not crack or split open—is impervious to the effects of moisture or temperature—is permanently crowned; therefore, the piano will not lose its original fine tone.
- 2 The Kimball Balanced, Even Tension Scale—a scientifically perfect scale design which produces a beautiful tone throughout the ENTIRE PIANO.
- 3 The Kimball Direct Motion Action—a patented feature which, in even the smallest Kimball Piano, permits a natural, direct hammer blow against the strings and provides the NORMAL TOUCH so essential to good piano playing.
- 4 The Kimball Pipe Organ Tone Chamber—helps to impart a VOLUME and QUALITY of tone rarely found even in the largest vertical pianos.

Available only in the KIMBALL Consolette

We are proud to announce our appointment as the exclusive Kimball dealer for our community, for no other manufacturer offers such outstanding piano values. Only KIMBALL brings you:

- Such a wide variety of styles and designs under one world-renowned brand name, each instrument one of superb musical merit.
- Ninety-three years of unbroken continuity of owner-management during which Kimball Pianos have won international acclaim.
- America's preferred piano, as proved by the fact that more Kimball pianos have been sold than any other single make of piano.

Come in and see these distinguished instruments. If you play, try them. You'll hear a superbly beautiful tone; feel an action that is unmatched for flexibility and responsiveness. And like the hundreds of thousands of Kimball Pianos which have delighted three generations of music lovers, each of these latest Kimball models is "styled and built for the years."

Little Stories about

Great Hymns

Now let the heavens be joyful,
Let earth her song begin,
The round world keep high triumph,
And all that is therein;
Let all things seen and unseen
Their notes together blend,
For Christ the Lord is risen,
Our joy that hath no end.

Go to your church on Sunday!

Easter celebration in the early Greek Church, as now, was climaxed at midnight with a cannon shot. With ling, queen, and archbishops present, priests chanted, bands played, and rockets flared. For this festival, John of Damascus, the greatest poet of his church, in 750 AD wrote The Day of Resurrection.

Helicopter Rescues Marine Pilot Shot Down by Commies

TOKYO, (AP)—Communists shot down and captured Capt. William B. Smart, a Marine pilot from Leesville, La., in North Korea yesterday. But a helicopter rescued him minutes later under cover of blazing machinegun fire.

Smart's F-4U fighter-bomber was hit by antiaircraft fire on a routine rail cutting mission. When he bailed out, fellow pilots radioed the third air rescue squadron.

Red troops were waiting when Smart's parachute landed. They grabbed the captain, disarmed him and forced him to lie on the ground.

A helicopter, piloted by Lt. John R. Calhoun of St. Joseph, Mo., dropped toward the spot while Smart's fellow pilots dove in strafing runs on the Communists. Most of the Reds ran for cover.

Smart made a break for it. He grabbed a helicopter bar, used for supporting litters. Pvt. David Kroll, an aero-medical man from West Allis, Wis., pulled him inside as the copter rose through Red machinegun fire.

The helicopter was hit several times; even got holes in its gasoline tank. But Calhoun made it to Allied lines.

Cobra Loose In Denver

DENVER —(AP)—A deadly King Cobra was believed loose in Denver today.

The snake apparently slithered out of a reptile garden operator's automobile during an attempted burglary of the car.

Police said they had been on the alert for more than 12 hours, but had received no reports of its whereabouts.

The snake, said to be from five to six feet long, was in a carload of assorted reptiles and animals being transported to Bergen Park, Colo., by Scott Lamb.

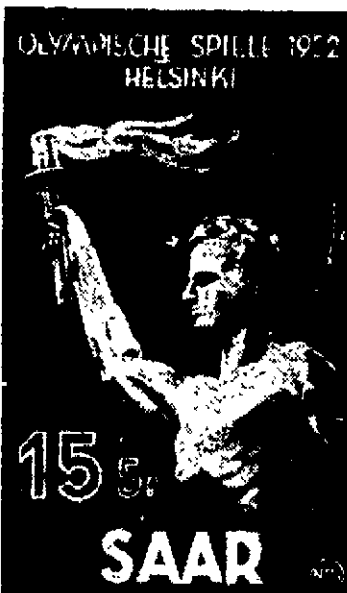

Lamb said about 400 snakes, including rattlers, boa constrictors and blue indigos, were in cotton sacks in the rear of the automobile. He said a sack containing about \$700 also was in the car, but was not touched.

The cobra was sacked with a blue indigo. The blue indigo snake was found by a man shoveling snow near bustling downtown Denver.

Denver General hospital hastily consulted local drug wholesalers for a supply of serum to combat the bite of the cobra.

RIOTS IN TEHRAN

TEHRAN, IRAN —(AP)—Bloody rioting erupted in Tehran today following a meeting sponsored by Communists to support Russian charges that the United States is using germ warfare in Korea. At least two policemen were reported killed. One unconfirmed rumor said there were about 20 dead.

Lead a Horse to Water, But...

PHILADELPHIA, (AP)—You still can lead, drive or ride a horse to the Delaware river—but it will be tough getting him across. That's because of a decision, reached in an acrimonious flurry, by some fairly important people from two states. These people have the say-so about what and who cross the Delaware river bridge between Philadelphia and Camden, N.J.

At a meeting of the Delaware river joint commission in Camden this week, stern realists argued that the press and speed of modern motor traffic on the heavily traveled bridge is too much for the horse. Joseph K. Costello, general manager of the bridge, demanded an absolute ban on horses.

But the proposed rule banning passage of horses across the bridge starting April 1 was amended to read that horses and horsedrawn vehicles may cross with special permission requested beforehand.

LITTLE LIZ

Proposes Plant To Use Timber in Southern Illinois

WASHINGTON, (AP)—Rep. Bishop (R-Ill.) has proposed that the government assist in setting up a pilot plant to find uses for Southern Illinois timber.

He said there is plenty of lower-grade, hard wood in the Shawnee national forest but that furniture manufacturers in Northern Illinois have never explored the possibilities of obtaining their raw material in the southern part of the state.

Southern Illinois university, he said, would establish a lumber pilot plant as part of its vocational training program and wants the U.S. forest service to provide technicians.

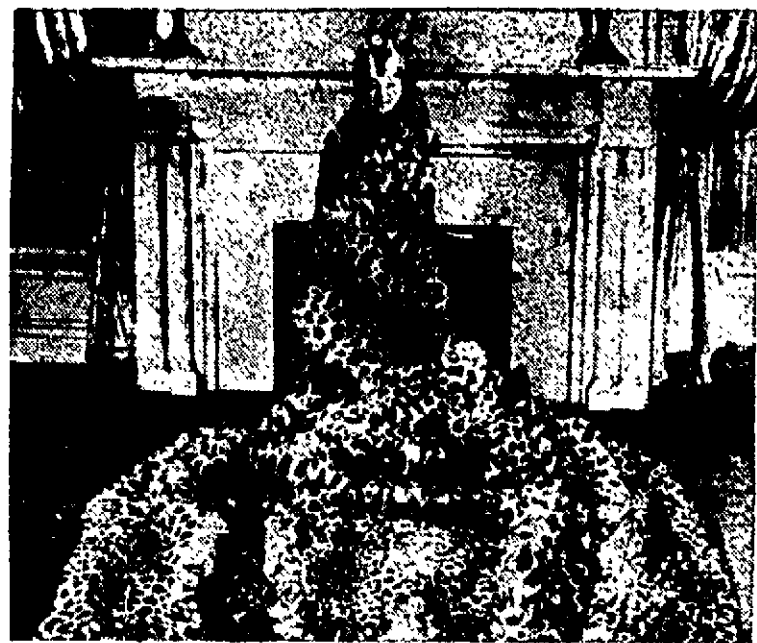

Bishop estimated \$50,000 in federal money would be needed for the salaries and expenses of the technicians.

He made the proposal during recent hearings of a house subcommittee on agricultural appropriations. The group made the testimony public today.

"The establishment of this pilot plant," said Bishop, "will put a hundred people to work in an area which has been declared by the president to be a critical unemployment area."

Forestry experts, he added, estimate there is enough timber in the area to maintain 250 such plants and "this would mean a total of approximately 25,000 jobs."

Subcommittee Chairman Whitten (D-Miss.) said the proposal appears "sound" but that it would be "rather difficult" for the group to approve funds not requested by President Truman.

ALL WRAPPED UP—Sheila Yang, 11-year-old daughter of the Korean ambassador, is all wrapped up in her Washington home in the \$100,000 leopard-skin rug, taken last June from the Seoul palace of the last queen of Korea. The rug, made of 48 matched skins, was acquired by Sgt. Elverne H. Gillner, who airmailed it to his Pueblo, Colo., home at a cost of \$39.20. The Korean government protested the "liberation" of a national treasure and U.S. customs authorities seized it and impounded it as the property of the Korean government.

Skies Clear, Mercury Rises

Skies were clear and temperatures near or above normal marks over most of the nation today.

There were a few chilly spots in the Midwest early today but warm weather was in prospect. It was near zero in Northern Wisconsin and Upper Michigan. The chilly air extended into Northern Texas. Warm weather continued over

the Far West and the Southeast. It was 86 in Los Angeles yesterday, the hottest March 27 in 20 years. The 76 reading at Pendleton, Ore., was a record for the date.

Snow flurries hit parts of Northern Wisconsin and Western New York early today. Light snow or rain was reported in sections of the Middle Atlantic states. A rain belt extended over Eastern Texas. Other areas reported fair weather.

Factory Worker Adopts Family Instead of One

OXFORD, Mich., (AP)—Factory worker Harold Hauser and his wife, their three children grown and gone, volunteered to adopt a child refugee from Europe.

That was two years ago. Today the Hausers have the daughter, plus her four sisters and her mother and father. But everybody's happy at the tightly packed five-room Hauser home.

Here's what happened: After the Hausers volunteered to adopt a displaced person as a daughter, Ruth Hansohn, a 12-year-old Latvian was selected for them. But Ruth hated to leave her family.

The Hausers heard of her predicament.

"All right," they said, "send us all seven."

This week Ruth got to Oxford with her parents, Mr. and Mrs. Herman Hansohn, and her sisters, Anna and Sylvia, both 19; Dsidra, 16, and Mirdsa, 15.

Taft, an Honest American

Bob Taft is still the leading candidate for the Republican nomination for the presidency. He has twice as many pledged delegates as his nearest competitor and it seems logical to us that when final returns are in it will be found that there will be enough support for the Taft kind of a candidate to easily nominate and elect him.

The nation will be better off with any other president than Harry Truman or a candidate of his selection. The "New Deal" and "Fair Deal" have brought the United States close to disaster. We are being led into Socialism and insolvency.

But there is no candidate other than Senator Taft in whom we have confidence and faith in his ability to lead us back to safety. We know what Taft thinks, because he tells us. We know from his past performance that he has the necessary courage and ability. We know he sees the danger ahead in the path the present administration is following. Taft points these dangers out and tells how he thinks we should avoid them.

Some candidates want to be all things to all men. They fear to speak honestly because they may lose votes. But Bob Taft just says what he honestly thinks is right and is not afraid to say so if he thinks no is the proper answer. For example, Taft was in Phoenix, Arizona, a week or two ago for an address and he was given a rousing and enthusiastic greeting by a great mass-meeting in that predominantly Democratic state. But on the day of his visit to Phoenix the local newspapers printed an interview by a member of their staff that met the candidate on his flight west and talked with him on his plane about Arizona's great need for water for irrigation purposes and the necessity for great expenditures of government funds for building more reservoirs and diverting rivers, etc.

Senator Taft said that while he appreciated the value of irrigation to the desert lands and sympathized with Arizona's needs, he was forced to say that at this time he could not see how the federal government would be justified in such expenditure. That took courage. That was honest. A lesser American would have indicated that he was all in favor of this investment that means so very much to Arizona, and won votes by so doing. Taft should win votes all over America by his honest conservatism.

Our Delegates for Taft

There are two candidates for delegate to the Republican national convention and two alternates, who are endorsed by the regular county organizations of the seven counties of the district and they should be elected. The endorsed candidates for delegate are John P. Manning of Rochelle and Arthur Rasmussen of Freeport. The endorsed alternates are Mrs. Marie Sheehy of Rockford and Ronald E. Shawger of Sterling.

It has been the practice for many years for the county organizations of all the counties of the congressional district to meet and agree on which counties shall have the delegates and alternates and who they shall be and an attempt is made to rotate the honors so that all the counties have a chance in turn.

John Manning, who is county chairman of our neighboring county of Ogle, tells The Evening Telegraph that he and all the other endorsed candidates for delegate and alternates are pledged to vote for Senator Robert Taft.

Manning and Rasmussen for delegates and Sheehy and Shawger for alternates, should receive the enthusiastic support of Republican voters of the district for posts they seek.

HOLLYWOOD — (NEA) — Exclusively Yours: Shelley Winters is positive it's love for Vittorio Gassman. She told me: "I'm even telling people he can act better than I can—which he can. What more proof do you want?"

The love scenes between Glenn Ford and Rita Hayworth on the "Affair in Trinidad" set are sizzling despite their pre-production fights.

Glenn's grinning explanation: "Smooching after you've snarled a while always raises the temperature." He needs something to raise his temperature about Rita?

Paramount's banned all mention of TV in Mary Sinclair's publicity copy. She only landed her movie contract because of her TV hit! ... Confession from Dinah Shore about her love ballads in "Aaron Slick": "They were all recorded in the afternoon. My voice isn't mellow enough in the morning."

Lana Turner's new MGM contract gives her \$300,000 a year for 20 weeks' work. Yipe! ... Marie Wilson and Groucho Marx will be re-teamed for a new RKO comedy.

Gig Young's explanation of why he's no longer in line for roles slated for Clark Gable at MGM: "My ears just wouldn't look right in the parts."

Bungo, "The Chimp with the Human Brain," has been added to the cast of Cary Grant's "Darling, I Am Growing Younger." Gary's due for a surprise—the chimp goes to the rushes and applauds himself!

BOB'S NEW ROMANCE
Robert Taylor and ballet beauty Ludmilla Tcherina have a let's-talk-it-over date in London when he completes "Eagle on His Cap" at MGM. They were introduced to each other on Bob's last night in London months ago. When Bob flew back to see her, Ludmilla took a raincheck on romance talk, explaining that she was still in mourning for her late husband—killed in an auto accident.

Both Ginny Simms and oilman Bob Calhoun deny they've set the wedding date on March 28 as reported from New York. Reason: Their squabbles.

Those billboards for "At Swords Point" showing the fur on Cornel Wilde's virile chest are drawing frowns from the censors. Cornel is the first movie king to display a poodle look over his ribs in advertising for a movie. ... Dan Dailey's close pals are worried about his health. ... Columbia's planning a re-issue of "The Jolson Story" and "Jolson Sings Again" as a double bill.

Fran Warren's becoming a strawberry blonde for her movie debut in "Abbott and Costello Meet Captain Kidd."

Donald O'Connor's TV hit has movie theaters howling for re-releases of his old films.

Danny Kaye's planning another tour of army camps when he completes "Hans Christian Andersen," North Africa's the first stop.

"BEULAH" RECOVERING
Hattie McDaniel, bedded for many months, is now maneuvering about her home in a wheelchair. ... Shades of Amber: There's a censorship knot facing the Louis Jourdan starrer, "Once Upon a Time," based on three of the sexy tales in Boccaccio's racy "Decamerone."

Will Rogers Jr.'s leave of absence from his Beverly Hills newspaper publishing job to play the role of his father in "The Story of Will Rogers" may be longer than he suspects. The studio's lining him up for a p.a. tour, and radio and TV guestings. ... Ken McDowell's "The River," which won a Venice Festival "best," missed all categories in the Academy awards. How come?

Danny Thomas will chant "Kol Nidre" in the new version of "The Jazz Singer," the only song left from the original score. All the other songs will be newly written especially for Thomas' style.

Still cameraman to Irene Ryan, who had just put on her best comely look: "Please look sexy." Irene: "You mean there's another way?"

What's Right?

You know some gossip and are tempted to pass it along. WRONG: Feel free to do so if you first say "Don't quote me" or "Don't let this go any further." RIGHT: If you must be that cautious it is a pretty good indication that the gossip shouldn't be passed on under any circumstances.

That Cat Still Has Claws

A PUBLISHER'S TRAVELOGUE

By MABEL S. SHAW

Herewith is published a letter from Mrs. Mabel S. Shaw, publisher of The Dixon Evening Telegraph, to her family. Mrs. Shaw is on a Mediterranean cruise aboard the Norwegian-American steamship Oslofjord. She is accompanied by Mrs. Charles R. Walgreen, Mrs. Victor Munneke, Mrs. Charles S. Clark, Mrs. Doris Schuler and Dr. Hazel Griffith.

Tunis, Tunisia
To all the Family:

Our plans for today was a trip by motor coach (and not what would be called a luxury coach) which means with considerable walking you are tired at the end of the day and happy to be back to our comfortable boat. We traveled many miles on the highway which was flanked on both sides with huge eucalyptus trees. There were groves of olive trees, thousands of them, and we were told that some of them were one thousand years old. We saw an inactive volcano, pasture land and big horned cattle, and worlds of vegetable gardens. This valley surrounded by the Atlas mountains is very fertile. Oxen plow the land. We have seen little farm machinery during our cruise. Land is cultivated from the sea level to the top of the mountains.

Hedges Evident
Cactus and prickly hedges five feet high are much in evidence and a real protection. Two crops of grain are raised. They have an artistic way of stacking baled hay in the shape of a story and a half house with sloping roof.

Tunisia lies along the northern coast of Africa between Algeria and Libya with an area of 48,300 square miles and a population of about 3,500,000 including 150,000 people of European origin. The native population is made up of Arabs and Bedouins and some Africans. The city of Tunis is the capital and principal port situated on Lake Tunis and I thought I had never seen a more beautiful view when I reached the height where attractive homes draped themselves from the mountain side with an unobstructed view of the silvery blue sparkling waters. What a thrill it would be to view it in time of storm when the tremendous splashing white caps reach the shore.

Narrow Channel
Tunis has access to the sea by means of a narrow channel to the port of LaGoulette. The city is divided into two sections, old and new. In the old you find the old gates, the Mosques of the 13th century, the very narrow streets lined with filthy looking shops, cobblers, tanners pounding out pans by hand, dry goods such as cheap cotton by the yard, fruit and candy stands. As we walked the narrow slippery cobble-stone streets we were beset by beggars and worse than that I had a hard time to keep a boy from stealing a gold pin off the lapel of my jacket. He got the safety catch loose as I clutched the pin. These youngsters follow the tourists in droves.

But Tunis and surroundings are not all like this. Nearby are the ancient ruins of Carthage. For more than 700 years this city was powerful and prosperous. At the end of a long conflict with Rome the city was captured and went up in flames. In 146 B.C.—what a long time that is—Carthage was

restored by the two Caesars. There is now in Carthage a fine historic museum.

Impressed by Walls
To go back to the city of Tunis we were greatly impressed with the old walls which enclosed the city in olden days. Built by the Romans they are still used as entrance to the city.

The aqueduct was really something to see. Built by the Roman empire its great walls towered and lowered from a tremendously heavy wall ornamented with many graceful archways in the lower walls. Water for the city drained from the top railing. It was tremendous in length.

Beautiful Homes
Many beautiful homes were seen. There were no chimneys and I learned that they heated their homes by charcoal burners. In the stores we saw many burners. They were made of perforated brass, stood about two and one-half feet high and were really attractive. If it was not for the size I would lug one along. Just the thing to take the chill out of your room. This Arabian and French city is on the northern tip of Africa. We truly are from day to day finding ourselves in many countries.

Appreciate Privilege
The privilege is appreciated and

while I have never taken so tremendous and tiring a trip I am happy to take in every possible point of interest for I would not want to do it over again. Even so I will often think of many places, winding roads high above the sea, the gorges and crests of the mountains whose scenic beauty is so inspiring. Often a glimpse provides a spectacle of over-arching grandeur. The blue sky, the sun, green and blue waters of the sea contribute to the creation of a beautiful, fascinating setting that will linger on and on in my memory.

Not far from Tunis and Carthage we visited the colossal amphitheater of El Diem said to be one of the most impressive Roman remains in Africa. It truly is impressive. It is built of massive stone and resembles very much the great coliseum in Rome. Here those of Christian faith were thrown to be torn to bits and devoured by roaring lions. There is a shaft and cross to the martyrs whose lives were sacrificed because of their belief.

Again 'tis the end of a tired day. With good night to all,
Love,
Mother.

RUTH MILLETT

Lengthy Drip-Drop Method Often Gets Desired Results

In the current Ladies Home Journal, Marceline Cox speaks of a woman who "when she wants to get something accomplished never turns her request on full force, but uses the 'drip-drop method.'"

That's a satisfactory description of the way the average wife accomplishes most of her purposes. Mrs. Smith makes up her mind one day that they can well afford an electric dishwasher and she doesn't intend to do without one much longer.

Does she make that announcement to Mr. Smith? Of course, she doesn't. She uses the "drip-drop method." And it's likely to go something like this:

First while reading a newspaper or magazine, (on an evening when Mr. Smith is in a genial frame of mind) she makes the innocent sounding remark that when they get a dishwasher she wants such and such a kind, pointing out all the advantages of that particular make, listed in the ad.

EXHAUSTION AIDS HER CAUSE
The next time they have twelve guests for a buffet supper and Mr. Smith, dead on his feet, is helping with the dishes, she points out how quickly the job could be done with a dishwasher.

When a friend buys one, she drags Mr. Smith out to the friend's kitchen to watch it work, and stands back to let the host and hostess do a selling job for her. The last, and final step, is when Mrs. Smith lures Mr. Smith into

a store that sells dishwashers under the pretext of buying some simple little gadget.

On their way out of the store Mrs. Smith drags Mr. Smith over to inspect a dishwasher and the salesman does the rest.

The "drip-drop method" may have taken three months or even a year from the first drip to the last drop.

But its outcome was always certain. The woman with the patience to use the "drip-drop method" of getting what she wants almost never fails.

Prayer for TODAY

O God, in the fullness of our need we draw near to thee. Let thy spirit take possession of us, speaking in our words, thinking on our thoughts, working in our deeds. So challenge us that the very trouble of our lives may bring out from our souls the courage that would never have been evident in prosperity and ease. Amen.

—Dudley Strain, Salem, Ore., minister, First Christian Church.

THE DOCTOR SAYS:

Many Aided by Society For Crippled Children

Each year, thousands of people buy Easter Seals to support the National Society for Crippled Children and Adults. But few of the generous citizens who each year for the past thirty years have helped to support this voluntary organization really know how their dollars are used.

The Society gives direct service to 228,000 crippled children and adults each year. Facilities and services for the handicapped operate in all 48 states, the District of Columbia, Alaska, Hawaii and Puerto Rico.

Nearly 2,000 professional workers are employed to give service to the handicapped, including both children and grownups. One hundred and fourteen out-patient treatment training centers are maintained for cerebral palsied and crippled children.

There are fifty-eight evaluation and diagnostic clinics and twenty-five speech centers are maintained. The National Society maintains in whole or in part eighty-one camps for crippled children in thirty-three states. One hundred and fifty-eight public school systems receive assistance and special education for crippled children.

This is by no means all. The National Society for Crippled Children and Adults aids in employment and placement services,

an activity which is enabling many handicapped persons to find happy and remunerative positions in society. Rehabilitation centers, physical therapy facilities, and many other services which aid the handicapped to become well enough to help themselves are encouraged and supported.

PROMOTES RESEARCH
But your Easter Seal dollar is not devoted alone to the care of children and adults who are already handicapped. In common with the objectives of medicine as a whole, the National Society encourages and helps to support research into the causes and prevention of crippling conditions, a program which it is hoped will eventually lead to a smaller number of handicapped people. This is the aim, of course; until it can be fully realized we shall have to help in every way possible all those who are handicapped.

For those who are locally minded, it may be mentioned that ninety cents of every dollar is retained in the state in which the money is raised.

Where else in the world can one find such a generous outpouring for less fortunate members of society?

The address of the National Society is 11 South LaSalle Street, Chicago 3, Illinois.

JACOBY ON BRIDGE

Earn a Gold Star, Find Best Defense

By OSWALD JACOBY

It's probably safe for me to say that the average player would let South make four spades in the hand shown today. As a matter of fact, I'll even let my readers look at all four hands and search for the right defense. Those who find it can congratulate themselves on their good eyesight, if nothing else.

When this hand was actually played in a recent rubber bridge

Where was the fourth, and setting, trick?

Obviously South held the ace of hearts and strong spades for his opening bid. Hence there was no possibility that East could produce a winning card. The setting trick had to come from the West hand.

There was only one chance, so Zedwitz played for it. He led a third club, allowing dummy to ruff, while South discarded. This discard did declarer no good, of course.

South naturally, and properly, led a trump from dummy and forced out the ace with his king. Thereupon Zedwitz led a fourth round of clubs.

East rose to the occasion by producing his ten of trumps, and South had to over-ruff with the jack. But now West's eight of spades was sure to become set up for the setting trick.

CARD SENSE
Q—The bidding has been:
South West North East
1 Spade Pass 2 Clubs Pass
?

You, South, hold: Spades A-Q, J-10-7-4-2, Heart A, Diamond 8, Clubs A-6-5-3. What do you do?

A—Bid four spades. No matter what kind of hand your partner has you want to make sure of reaching game. If he has a good club suit and slam ambitions, you are perfectly willing to hear further from him.

TODAY'S QUESTION

The bidding has been:
North East South West
1 Spade Pass 2 Clubs Pass
2 Spades Pass ?

You, South, hold: Spades 8-2, Hearts 9-6-3, Diamonds J-10-5, Clubs A-K-Q-8-4. What do you do?

Questions and Answers

Q—What tree surpasses the Sequoia in diameter?

A—The Tule cypress of Santa Maria del Tule in southern Mexico.

Q—Does the United States seal appear on the coat of arms of any Army regiment?

A—The Third Infantry Regiment is the only regiment permitted to use the United States seal as a part of its coat of arms.

Q—What American city observes an annual Sauerkraut Festival Day?

A—Forreston, Ill.

Q—Are the streets of Paris still paved with woodblocks?

A—Within two years it is expected that no "wooden" streets will remain in the French capital.

Q—Are there any fruiting plants belonging to the lily family?

A—Yes including the Clintonia, false spikenard, false Solomon's seal, true Solomon's seal, the trillium, the Indian cucumber and the green briar.

Woman's Clubs of Lee County Meet in Amboy Thursday

Elect Mrs. Maude Taylor, Franklin Grove President

By BEVERLY J. STROUSS

Mrs. Lawrence (Maude) Taylor of Franklin Grove was named president of the Lee County Federation of Woman's clubs at the 1952 spring convention held Thursday at St. Patrick's hall, Amboy. The Amboy Woman's club and the Young Woman's Evening club were hosts to 100 club women from this county at the afternoon meeting.

Mrs. LaDeann Bingham, Pawpaw, was named secretary-treasurer.

Mrs. Kirby McKinnon, Mrs. John McGowan and Mrs. Walter Weber, were in charge of registration and Mrs. William Brady and Mrs. Leroy Hill were ushers. All of the women are from Amboy.

Mrs. Dale Miller, Compton, vice president, who has been acting president, since the resignation of Mrs. Raymond Losey, president, who moved away, was in charge of the meeting.

50th Anniversary

Honoring the golden anniversary of the Amboy Afternoon club which was a feature of the convention, there was group singing of "Bicycle Built For Two." Mrs. J. H. Hughes accompanied on the piano and Miss Carol McKinley directed. Mrs. Mary Deutsch, Dixon, led the pledge to the flag.

Father Robert P. Donovan, Walton, the afternoon's speaker, gave the invocation. Mrs. Everett Barnes, president of the Amboy Woman's club, welcomed the convention attendees.

"Sea For Two" and "Old Fashioned Garden" were selections of the county chorus composed of members from Amboy and Dixon. Mrs. O. N. Eckburg was pianist and Miss McKinley, directed.

District officers were recognized by Mrs. Miller and secretary, Mrs. Roy Long, Amboy, read minutes of the July board meeting and of the spring convention in Ashton. Mrs. Long also took part in the program singing "I Rashed By Your Window" and "My Friend" Mrs. Hughes accompanied her.

Youth Problems

"Youth Problems of Today" was the topic selected by Father Robert P. Donovan, Walton, the afternoon's speaker. Formerly chaplain at the Illinois State Training school for Boys, St. Charles, for nine years, Father Donovan told of his experiences while there. He stated "Youth Problems are Adult Problems." Yesterday's speaker held the rapt attention of his audience as he knew just when to inject the right amount of humor or seriousness, at all times using timely facts. Rush is one of our main enemies today, he said. In closing he urged parents to take an active part in the accomplishments and interests of their children.

Mrs. Charles Domeler, Morrison, 13th district vice president delivered greetings from the district board and also presented a scroll to Mrs. Barnes for the Amboy Woman's club, for their 50th anniversary. This was from the general federation.

Reports from club presidents heard, Mrs. Barnes, Amboy; Mrs. William Knuth, Amboy Young Woman's Evening club; Mrs. Howard Byers, Dixon; Mrs. Ervin Hodge, Franklin Grove, and Mrs. O. A. Kutter, Compton.

Mrs. Miller in her closing remarks urged the club women to vote in the April 8 and 12 elections. Past secretary Long presented a gift to Mrs. Miller from the country clubs.

In Pawpaw

The 1953 convention will be held in Pawpaw.

A three tiered anniversary cake, decorated individual cakes, and yellow tapers carried out the golden anniversary theme of the Amboy Afternoon club on the tea table. Mrs. Lawrence Taylor and Mrs. Dale Miller presided. Mrs. F. A. Wedlock of the Afternoon club, and Mrs. M. G. Munn and Miss Marie Falvre, co-chairmen of the evening club planned the tea, from which the proceeds will be used to purchase a gift for the Lee County Nursing Home. Others on

Dr. Pearson To Be Speaker for Church Supper

The Christian Church Missionary Council will have its annual birthday supper, April 1 at 6:30 o'clock at the church. The guest

speaker will be Dr. E. B. Pearson who has recently returned to the States from the Belgian Congo where he served some 20 years as a missionary doctor for Disciples

of Christ.

Dr. Pearson first went to Africa in 1911 and served one term in Liberia. In 1917 he was assigned to Monieka, a station of the Congo Mission on a tributary of the Congo River, under the auspices of the United Christian Missionary Society. Subsequently he also was stationed at Lotumbe and Mondombe, the latter 1500 miles from the mouth of the Congo.

From the beginning, Dr. Pearson made frequent itinerations to remote areas in the interest of his work. Besides developing the medical work, he was also called upon to do evangelistic and industrial work as well. His wife assisted him.

Back in 1949

In 1933, it was necessary for the Pearsons to remain at home for the education of their children. They went to the field again in 1949, for a final service.

Dr. Pearson spent his boyhood on an Illinois farm, and graduated from Dureka college. He attended the American Medical Missionary College, Battle Creek, Michigan, and holds the M. D. degree from the College of Medi-

The 50th anniversary of the Amboy Woman's club was carried out in the tea table decorations at Thursday's convention of the Lee County Woman's clubs in Amboy. Honor Newlyweds, Eugene Kaeckers, At Many Parties

Mr. and Mrs. Eugene Kaecker, Ashton, newlyweds have been entertained recently at several social functions held in their honor.

Tuesday evening nearly 60 neighbors gathered at the home of the bridegroom's parents, the Clarence Kaeckers, and held a charivari for the couple welcoming the bride to their community.

The evening was spent playing "505" with the following receiving prizes: men's high, Charles Schorr; men's low, Edward Schnell; ladies' high, Mrs. William Messer; ladies' low, Miss Virginia Hackman and traveling prize, Vincent Arnold tied.

Refreshments were served and everyone received a treat from the bridegroom.

The gift from the group was a purse of money, the presentation being made by Harry Becker.

Wednesday evening approximately the same number of neighbors of Mrs. Kaecker, the former Darlene Swarts, held a miscellaneous shower for the couple in the basement of the Sugar Grove school.

The evening was spent in a social manner, during which time, the bride and bridegroom opened their many gifts. Pink was the color used in the decorations, and bridal dolls very appropriately dressed by Mrs. Paul Kesselring, formed the centerpiece for the table with tall pink tapers on either side.

Refreshments were served, the ice cream being furnished by the bridegroom.

The Woman's club chorus will practice at 7:15 p.m. today at Loveland Community House.

Dixonites Plan to Attend PTA Leadership Training Institute

Mrs. Thomas H. Ludlow, Riverside, president of the Illinois Congress of Parents and Teachers, has announced that leaders in local, council and district parent-teacher work will have an opportunity to learn the up-to-date mechanics and techniques of their work at a leadership training institute arranged by the National Congress director of field service, Mrs. Marguerite M. Scheid, Chicago.

The training institute which is designed to meet the needs of this area will be held at Kishwaukee school, Kishwaukee street and Catlin av., Rockford.

Mrs. Eugene Gordon, Dixon, assistant director of District 3, of the Illinois Congress of P.T.A., will be among the Dixonites attending.

Two Day Session

This will be a two day session, April 1, 10 a.m. to 12 noon, 1 to 4 p.m. and 7 to 9 p.m. April 2, 10 a.m. to 12 noon, and 1 to 3 p.m.

Mrs. Scheid has had extensive experience in civic and welfare work, both professionally and as a lay member of the community. She has been an active parent-teacher leader for many years and is considered an expert in this field. During the past year she spent two months in the Hawaiian Islands where she helped P.T.A. officers,

educators and other community leaders in strengthening the parent-teacher organization throughout the islands.

One of her most important activities as director of field service is conducting leadership training institutes and workshops at leading universities and colleges. During the past year she has given instruction in parent-teacher education at approximately 20 institutions of higher learning.

Feud of Words Breaks Out in Delegate Fight

Kefauver Accuses Kerr of 'Smear' In Advertisement

By The Associated Press

The presidential nomination battle gathered steam today from the heat of angry name calling between candidates.

Unrestrained word-fuelling shattered the heretofore polite campaign in Nebraska between Sen. Estes Kefauver of Tennessee and Sen. Robert S. Kerr of Oklahoma. They are seeking delegates in next Tuesday's Democratic preference race.

Kefauver angrily accused Kerr of trying to "smear" him through an advertisement which criticized the Tennesseean's voting record in congress on Communist-control legislation.

Kerr said Kefauver shows "an utter disregard for the truth." He also accused him of trying to inject a note of religious intolerance into the campaign.

Refers to Oil

The first statement referred to a Kefauver accusation that Kerr supported legislation to aid oil, gas and allied industries in which Kerr has personal interests. The second statement referred to a Kefauver interview.

The Tennesseean was asked if he had seen a published report which said Kerr had supported Republican Herbert Hoover against Democrat Al Smith, a Catholic, in the 1928 presidential race. Kefauver said he had read the article and was sure Kerr would want Nebraska voters to know his position in that race.

A "Canard"

Kerr's Nebraska campaign manager, Bernard J. Boyle, a Catholic, insisted Kerr had supported Smith. He said the rumors about Kerr were "a last minute vicious canard."

Kefauver denied he raised the religious issue and said Kerr should himself answer about the 1928 campaign.

The Kefauver-Kerr exchange overshadowed the busy campaigning in Nebraska for Republican votes for Sen. Robert A. Taft of Ohio, Gen. Dwight Eisenhower, Harold Stassen and Gen. Douglas MacArthur.

Targets of Blasts

Taft and Stassen were targets of verbal blasts on the Republican side. Stassen hurled new charges of "isolationism" at Taft. And Stassen himself was accused in Washington by Rep. McCormack of Massachusetts, house Democratic leader, of playing politics and violating decency in criticizing Attorney General McGrath.

McCormack said Stassen's New York speech last month suggesting that McGrath had become a millionaire in office "shows how far Candidate Stassen will go to make headlines."

Taft, Stassen and Gov. Earl Warren of California campaigned in Wisconsin today seeking votes in next Tuesday's preference primary there.

Taft Leading

A new Associated Press survey of 35 Wisconsin newspaper editors found Taft still leading in sentiment but losing ground to Warren in the past week. Only one editor said sentiment in his district favored Stassen compared to four a week ago. The editors said Kefauver was gaining over two slates supporting President Truman in the Democratic race.

Of the editors, 23 found Taft ahead, 7 Warren, 1 Stassen; 23 Kefauver, 9 Truman. The others were undecided.

President Truman returned to Washington from Florida last night and refused comment on politics, including reports that he had asked Gov. Adlai Stevenson of Illinois to become administration candidate for president.

Truman Will Run

In Washington, Sen. Kilgore, (D-W Va) said he believes Truman will run again unless he can find "another good man" who can win and "who would carry out the Truman foreign policy."

Maine Republicans, ending a two-day meeting in Bangor, today choose 16 presidential nominating delegates amidst an Eisenhower-Taft battle. Indications were the delegates would go to Chicago unpledged.

Insure GI's Vote Rights, Truman Asks

WASHINGTON, (AP)—President Truman asked congress today to insure that the 2 1/2 million men and women of voting age in the armed forces have an opportunity to cast ballots in this year's elections.

In a special message, the president suggested legislation "which will overcome the obstacles to soldier voting that may still exist in state laws as the elections draw near."

Such legislation, he added "should be temporary, since it should be possible to make all the necessary changes in state laws before the congressional elections of 1954."

Sends Study

With his message, the president sent to the capitol a study made by a committee of the American Political Science Association. It made recommendations for federal, state and administrative changes in absentee voting laws. Truman had asked this organization last Oct. 23 to make the study.

The committee, with one dissent, recommended the use of a federal ballot this year in cases where state laws were not sufficiently improved in time to give armed service members from those states the right to vote.

Lists Rights

The association's special committee expressed the belief that service men of voting age, whether in the United States or overseas, should have the right:

- "1. To vote without registering in person.
- "2. To vote without paying a poll tax.
- "3. To vote without meeting unreasonable residency requirements.
- "4. To vote without meeting unreasonable literacy and educational requirements.
- "5. To use the federal postcard application for a ballot.
- "6. To receive ballots for primary and general elections in time to vote.
- "7. To be protected in the free exercise of their voting rights.
- "8. To receive essential information concerning candidates and issues.
- "9. To receive essential information concerning the methods by which the right to vote may be exercised.
- "10. To receive essential information on the duty of 'citizens in uniform' to defend our Democratic institutions by using, rather than ignoring, their voting rights."

Dixon College Alumnus Dies In Minnesota

George H. Herreid, Deer River, Minn., who is known to many Dixon visitors to the hunting and fishing area of that state, died yesterday and funeral services will be held in Deer River Saturday afternoon.

Mr. Herreid, formerly state senator from his Minnesota district, was the Ford dealer in Deer River and he and his brother Will were partners in Herreid Brothers who operated extensive business interests in the northern Minnesota city, including Herreid Brothers store, a large department store.

Senator Herreid was a graduate of Dixon college. He is survived by his widow, two brothers, Will and Henry, and a sister, as well as a number of nieces and nephews. A leader in business and civic affairs in the Arrowhead country, Mr. Herreid's death will be mourned by a great number of friends.

Report Two Minor Fires in Dixon

Two minor fires, one at the Family Liquor Store, 318 First st., were reported to the Dixon fire department yesterday and today.

The department was called to the First street store about 12:45 a.m. Friday to extinguish a fire which had started in the waste-basket. Little damage was reported.

Earlier a grass fire had been reported at 2121 Dodge st., about 2:15 p.m. Thursday.

Restaurant Prices Now Are Frozen

WASHINGTON — (AP) — Restaurant meal prices have been frozen, effective April 7, at their Feb. 3-9 level.

Operators must post by April 25 the ceilings on their main food and drink items.

The Office of Price Stabilization (OPS) issued the order last night. It said restaurants could change their prices up or down only on OPS orders. These would be based primarily on significant changes in the Bureau of Labor statistics' monthly wholesale food price index.

Price Stabilizer Ellis Arnall said he foresaw no general changes in restaurant prices since food costs are "fairly well stabilized."

The new regulation replaces an order, in effect about a year, which permitted restaurants to adjust selling prices at any time to match percentage changes in their food costs.

Judge Candidate For Senatorial Seat in 43rd

CANTON, (AP)—Fulton County Judge Albert Scott, 30, today announced he is a candidate for the Republican nomination for state senator in the forty-third district.

Scott, a Marine lieutenant in World War II, is the fourth person to announce for the office. All are seeking to fill the vacancy caused by the death of Senator Wallace Thompson last month.

Thompson's widow, Mrs. Cornelia Thompson of Galesburg, is a candidate. A special primary will be held July 1.

The forty-third senatorial district is made up of Knox and Fulton counties.

Water Rate Hike For Rock Falls, Sterling Okayed

SPRINGFIELD, (AP)—Northern Illinois Water Corp. today received Illinois Commerce Commission authority to raise Sterling and Rock Falls rates by an average of about 12 per cent.

The raise, effective April 1, is about one-third of what the company asked and will increase annual revenue by about \$20,237.

Increases asked by the company would have averaged 37 per cent and added about \$60,000 to annual receipts.

A TOTAL STRANGER

I bought from his "widow"

Under the terms of my Title Guarantee Policy, Chicago Title and Trust Company settled promptly, and I'm still in my home!

Like you, I'd read about such things. The man was declared legally dead, and his "widow" sold their property to me. But three years later her husband came back... and made a claim on my house!

I was plenty worried until my lawyer told me my Title Guarantee Policy would take care of everything—even the expense of going into court if that was necessary. Actually, Chicago Title and Trust Company made an out-of-court settlement at no expense to me—leaving me in sole possession.

It always pays to insist on a Title Guarantee Policy

Sky Visitor Has Citizens In a Dither

STRATFORD, Wis., (AP)—A reticent stranger dropped out of the sky yesterday, took a snooze at a local hotel and then dropped out of town.

He left behind an open parachute with unidentified instruments attached, yards of plastic material taken to be a deflated balloon, and scores of gaping townfolk.

The blossoming mystery was solved last night when an official of General Mills, Inc., at Minneapolis identified the sky traveler as one of the firm's weather researchers on a busman's holiday.

Charles Moore, in charge of balloon work for the aeronautical division of General Mills, said the employee—Nick Green—had taken an unauthorized jaunt in a weather balloon on his day off.

What made local townsfolk scratch their heads was that the visitor wouldn't talk to any one except Under Sheriff Myron Mueller. And neither Mueller nor his father, Sheriff Carl Mueller, would pass along the information.

Myron Mueller, called to the town of Emmett Colvin because a parachute was hanging from a power wire, said he found the man who had been seen leaving the area, asleep in a hotel room here. He said the man, gave his name as Nick Green.

The silent stranger left town by bus in the afternoon. Moore said a man would be sent from Minneapolis—about 200 miles west of here—to pick up the parachute, instruments and plastic material which the sheriff's department put away for safe keeping.

General Mills is engaged in cosmic ray research work for the navy.

Records Should Be Opened by Law, Says Editor

CINCINNATI, (AP)—More than 200 industrial editors were told last night that there should be a "right by law, within the limits of security, for newspapers to have access to details of government agencies."

The suggestion of Alexander F. Jones, president of the American Society of Newspaper Editors, came at a banquet session of the three-day convention of the American Association of Industrial Editors.

The ASNE president deplored lack of voting by United States citizens, remarking that "in 1948, 48,000,000 persons did not get near the polls."

He blamed this failure on the set-up of the present primary law, which he termed a "stogie law."

Jones is executive editor of the Syracuse (N.Y.) Herald-Journal and Herald-American.

EASTER TRAGEDY

ALBANY, N.Y., (AP)—One thousand Easter bunnies died today in a barn fire near here. Clarence E. Mondore said he had raised the rabbits for sale at Easter time.

REDUCING EASY SAVANNAH LADY USES RENNEL

"I have lost 15 lbs. thanks to Rennel," writes Mrs. Rosie Zink of Rt. 2, Sanel Concentrate, 2 East Normal, Savannah, Ill.

It's amazing how quickly you can just as always and yet by following the Rennel home recipe I can re-lose unsightly fat at home. Obtain duce. I used to be bothered with gas/liquid RENNEL at your druggist, mix and blot also my ankles used to with grapefruit juice or juice of two puff up but now I no longer have lemons as directed and take two these troubles. I am 66 years of age/tablespoonsful twice a day. That's and now am able to enjoy life very all there is to it. If you do not lose much, Rennel is wonderful and it's weight with the very first bottle just so easy to lose weight safely right in return it to the manufacturer for your own home. I hope others will know a hungry moment while reduce try Rennel as I feel certain they will know a hungry moment while reduce have the same good results." Soling with RENNEL.

Charlie the Cop Answers ...

(Charlie the Cop is here for the purpose of answering your questions pertaining to motor vehicle laws. He appears as a part of the junior chamber of commerce safety campaign and under the direction of the Illinois State Police. All questions that are to be answered in this space are to be sent to Lil Delmar Templeton, Illinois State Police office, Sterling.)

Q. Why is it that people living in Dixon and working here have out-of-state licenses? I live here and I must have Illinois licenses?

A. From the contents of your letter, I believe that you have a legitimate complaint. It is compulsory by law that anyone making a residence in Illinois must within 24 hours apply for both operators and auto licenses. I might add that since receiving your complaint and question, the state police will make a survey in regards to this.

Army Moves to Ban Dependents Of GI's Based in W. Germany

FRANKFURT, GERMANY — (AP)—The U. S. army moved ahead today with its program of prohibiting dependents of enlisted men below the rank of sergeant from staying longer than 90 days in West Germany.

Under army regulations, only the dependents of personnel from sergeant upwards are entitled to travel allowances, and housing when they arrive here.

If a lower grade soldier wants to bring his wife and children over he must do so at his own expense, and provide housing for them on the German economy.

These dependents obtain tourist visas from the German government good for 90 days, and the army has ruled that such visas cannot be renewed during any calendar year by unauthorized dependents who arrived after March 15.

Unofficial estimates said as many as 10,000 dependents may be affected, but army officials said they had not yet compiled the figures.

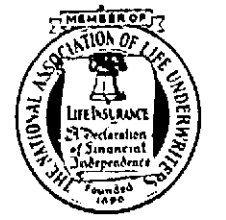

The army said it had not "ordered" any such dependents home, but the visa ruling automatically barred them from remaining. The army said the order was issued "to alleviate the rapidly growing problem resulting from the presence of occupation forces dependents in the zone not under military sponsorship."

Vote Drastic Cage Rule Changes

Free Throws Will Become More Common

Coaches Hope to Give Losing Team Chance to Rally

SEATTLE — (AP)—The "if" has been taken out of foul shots in basketball. A fouled team no longer will be able to take the ball out of bounds to put it into play instead of trying for its free point.

The drastic change, intended to speed the game and give the trailing team a chance to recover possession of the ball, was announced here yesterday by the national basketball committee of the United States and Canada.

Change Late Fouls
At the same time, the men who annually review the hoop game rules decided to grant two free shots during the last three minutes of all games for all fouls. This is done on the premise that every foul in the closing three minutes is to be considered intentional.

The new rule requires that all foul shots must be taken. The fouled team no longer will be permitted to take the ball out of bounds.

A second shot is awarded when the first is missed on any foul up to the final three minutes. At any time, a player fouled in the act of shooting will get two shots, as in the past, or one if he made the field goal.

Retain Some Rules
The rules will continue to provide that after the charity toss is thrown the ball goes out of bounds to the scored-upon team if the point is made. If the second shot is missed, the ball is in play.

During high school overtime, the automatic two-shot regulation will remain in force. In other games — college, Y.M.C.A. and Amateur Athletic union — the bonus shot will apply for the first two minutes of overtime and the automatic two-shot system for the remaining three minutes.

Illinois last season was given permission by the national committee to experiment with a rule requiring all free throws to be shot, with a double foul being assessed in the instance of a normal single-shot foul only if deemed flagrant. This prevailed throughout the game and overtime.

Although it could not be verified immediately at the office of the Illinois high school association, presumably the state will follow the new regulations which must be observed unless dispensation is granted for research purposes.

Actually, however, the main difference between the new rule and the way Illinois played last season is the automatic double foul in the last three minutes of regular play and the entire overtime period.

The possibility exists that Illinois, pleased with the results of its experiment which was weighed in drafting the new rule, may request to continue on the same basis for further experimental purposes.

Canadiens, Wings Take Commanding NHL Playoff Leads

By the AP
The Montreal Canadiens and the Detroit Red Wings boast commanding 20-lead in the National Hockey league playoffs today and appear a cinch to meet in the final round for hockey's highest honor.

Montreal, backed by some stellar goal-tending on the part of young Gerry McNeill along with power up front from Richard and recruit Bernie (Boom Boom) Geoffrion, defeated the Boston Bruins, 4-0 last night to take a 2-0 lead in their best of seven series.

The Wings, also abetted by some fine goal-tending by sophomore Terry Sawchuk, turned back the defending champion Toronto Maple Leafs, 1-0, to take a 2-0 lead in their best-of-seven affair.

The Canadian victory was a costly one however as Montreal lost the services of hard luck center Ken Mosdell. Mosdell broke his right leg shortly after he scored the opening goal of the game in the first period.

Bratton to Meet Rocky Castellani

NEW YORK (AP)—Rocky Castellani, the up and down middleweight from Luzerne, Pa., takes on stiff-punching Johnny (Brittle) Bratton in the main line rounder at Madison Square Garden tonight.

In his last Garden effort, Bratton lost his NBA welterweight crown to Kid Gavilan last May, had his jaw fractured for the third time, and fractured his right hand.

Although Rocky's won-loss record is far superior, and he will have about a five pound weight advantage—155 to 150—Bratton has been made a 7 to 5 favorite. Their 9 p.m. (CST) clash will be broadcast and telecast coast to coast.

'You Should Have Seen Hub,' Bub

By GAYLE TALBOT
PHOENIX, Ariz. —(AP)—His face has become lined and somewhat weathered from a thousand suns, but his left arm still hangs at that strange angle and heads still turn when he strides through the hotel lobby.

They whisper: "That's Carl Hubbell. You think the Giants have some pitchers now—you should have seen that skinny guy bend his screwball across the outside corner. I'll never forget the day he struck out six American leaguers in a row in the '34 All-Star game."

Hubbell's left wing took on a

permanent slant from the years he threw the screwball, a sort of patented and unnatural delivery in which he twisted his wrist backward and let the ball go from the side of his hand.

Carl now is head of the Giants' extensive farm system.

"I've often been asked what I was throwing Ruth and Gehrig and Simmons and those fellows," Hubbell says. "Well, it's a little complicated. I was throwing everything I knew how, including fast balls and curves, but the only thing they got a chance to hit was the screwball."

"Some managers have a kind

Babe Ruth Carl Hubbell

of mania about getting that first pitch over, staying ahead of the batter," he observed. "I never

worked that way, and neither have any of the real good pitchers I've known. I guess I was what you would call a two-behind pitcher, because I always felt better and had the most success against a majority of hitters after I had put the first two pitches outside the strike zone.

"That way you really get most batters set up. He says to himself, now this sucker will have to come right through the middle with a nice, fat fast one, and he gets himself set to knock it a mile. That's when you slip him the one with some stuff on it that

you wanted him to hit all the time.

"Of course, if you miss with that third one, you're in trouble. I wouldn't recommend the two-ball routine to any pitcher who hasn't got absolute confidence in his control."

The batter Hub recalls as having bothered him the most over the years was Billy Jurges of the Chicago Cubs.

"The only place I could throw to Billy without being murdered was high and outside, and that was a difficult spot for me, a low ball pitcher," he said.

Vitt Says Yanks Will Miss DiMag

Joe's Absence Could Cost 6-8 Wins, He Hints

BY GAYLE TALBOT

PHOENIX, Ariz. —(AP)—The voice of experience in the form of Oscar Vitt is prepared to warn the New York Yankees that they are going to miss Joe DiMaggio more than they have any idea.

Old Oss, himself, is taking it easy these days. The onetime Detroit star quit the game shortly after the "cry baby" episode at Cleveland in 1940, when his players revolted at what they considered cruel and inhuman treatment and forced his resignation. He never talks about that, feeling, no doubt, that such a shabby item is best forgotten.

Joe the Best

"I don't care who the Yanks put out there in centerfield—Mantle, Jensen, Woodling, Cerv or whoever—he's not going to be another DiMaggio," Oss declared. "In the course of a season, the difference between having Joe and some other player out there can easily come to six or eight victories, and Stengel will find it out. I'm only talking about his fielding, too."

"Believe me, I know. He murdered me in the three years I was at Cleveland. I can remember at least a half-dozen games we lost to those guys that we would have won but for some catch or throw Joe made at a crucial point. I never saw one to equal him in that respect, no matter what my old teammate Ty Cobb says about the moderns."

Vitt Remembers

"I'll never forget one important game we lost to the Yanks 3 to 2. The first time Hal Trosky came up with two out and men on base he hit one a country mile out by the flagpole at the stadium. I didn't think Joe had a chance at it, but he went back on those long legs of his and hauled it down."

"Next time Hal came up I wavered to Joe to go way back, muttering to myself, and he took me up on it. He trotted out several more steps, and I could see him grinning at me. This time Trosky banged as pretty a Texas leaguer as you ever saw out over second, and as it cleared the infield I cupped my hands and yelled 'Get that one, you so and so!'"

"Well, I'll be damned if he didn't."

Played With Cobb

Vitt, who batted just in front of Cobb for seven years with the old Tigers, agrees with Ty's recent blast at the modern game in only one principal respect. The present-day batter, Oss says, does not know the art of bunting and faking bunts to unsettle the opposing infield and pull it out of position. He names Richie Ashburn of the Phils as the one exception.

Cobb was a fierce man to precede in the line-up, Oss says, for when he came to bat he had his own set of complicated signals to advise the base runner what he intended to do. If he hitched his belt and lifted his left heel it meant one thing. If he just lifted the heel it meant another.

"He changed 'em every few days and it was enough to run you crazy," Oss says.

It's Colleges Vs. AAU Quints In Cage Finals

NEW YORK —(AP)—How will the nation's top college basketball teams—Kansas or LaSalle, for instance—stack up against the touring AAU quintets in the Olympic trials, opening tomorrow night?

Warren Womble, 32-year-old coach of Peoria's champion AAU Caterpillars, gave this answer: "I think our best AAU clubs, our team or the Phillips Oilers, should beat the best college team eight or nine times out of ten."

"There's always that other chance of course, and there's always Lovellette."

The tournament, involving four AAU and four hand-picked college quintets, begins tomorrow in New York's Madison Square Garden and in Kansas City. The schedule (all times CST):

AT NEW YORK: 6:45 p.m., Peoria Caterpillars (AAU champion) vs. U.S. Air Force (AAU No. 3); 8:30 p.m. LaSalle (NIT champion) vs. St. John's (NCAA runnerup).

AT KANSAS CITY: 8 p.m., Phillips Oilers (AAU runnerup) vs. Hollywood Fibber McGee and Molly (AAU No. 4); 9:45 p.m., Kansas (NCAA champion) vs. Southwest Missouri State (NAIB winner).

Under the schedule, the collegians and independents can't test their wares against each other until Tuesday's final here. The semifinals here Monday night match the college winners in one bracket and the two AAU survivors in the others.

OLYMPIC SWIM SCENE BRIGHT

PRINCETON, N.J. —(AP)—United States chances for the 1,500-meter freestyle event in the 1952 Olympics are much brighter today after Ford Konno's smashing triumph in the NCAA swimming championships.

Konno, of Ohio State, came on like a sprinter last night to whip John Marshall of Yale, Australia's chief hope in the Olympics. The Australian star, tiring badly, also was passed by his Yale teammate, Jimmy McClane, the 1948 Olympic champion.

Konno was timed in 18:15.5, which bettered Marshall's NCAA championship meet record of 18:18.8 set last year. His performance was off his time of 18:11.5 in winning the recent Big 10 meet, which he has applied for as a collegiate record.

CUBS SEEK CATCHER

Wid Matthews Conducts Talent Hunt

MESA, Ariz. —(AP)—Personnel Director Wid Matthews rejoined the Chicago Cubs today after a Florida talent hunt and said that before May 15 he may be able to make a profitable move.

May 15 is the date when the player limit is cut to 25.

Matthews' main thought was a catcher since the Cubs' rookie receiver, Harry Chitt, is due for induction and Bruce Edwards' arm still is doubtful.

Matthews' said catchers are scarce. He also said the Brooklyn Dodgers want pitcher Bob Rush. But the Cubs demand in return a pick of the Dodgers regular outfielders or possibly first baseman Gil Hodges, originally a catcher.

While in Florida Matthews huddled with officials of the Cincinnati Reds, Boston Braves, Philadelphia Phillies, St. Louis Cardinals and Dodgers.

Bowlers From Marseilles Now Third in ABC

MILWAUKEE, (AP)—A "dark horse" from Fort Atkinson, Wis., and a team from Marseilles, Ill., furnished the highlights in shooting yesterday in the American Bowling Congress tournament.

Orrin Anderson, 43, who held a 172 average last season, shot the first 700 series of the 1952 tourney in the doubles, a resounding 722 set on games of 268, 246 and 208. But he folded in the team and singles events and wound up with a weak 1,688. He had 477 in the team and 489 in the singles.

But his doubles partner, Francis Siebenaller, gave him 509 and they rocketed into third place with 1,231.

Silver's Insurance of Marseilles, racking up a big 1,057 middle series, posted a 2,878, good for third place in the regular team event.

Beautyrest, Kenosha, Wis., pounded 2,807, good for fifth place. Arnold Nimtz, St. Joseph, Mich., put together games of 242, 191 and 242 for 675 and second place in the singles.

There was only one all events change, Forest Schafer, Clintonville, Wis., hitting 1,815 for ninth place.

Furgol Nursing Two-Stroke Lead In Golf Tourney

WILMINGTON, N.C. —(AP)—Marty Furgol nursed a two-stroke lead going into today's \$10,000 Azalea open golf tournament second round.

His eight under par 64 tied the course record and left him two strokes ahead of the field yesterday. Marty had nine birdies and only one slip over par, a three-putt green on the fourth costing him a five.

Alt Wall, Jr., Honesdale, Pa., and Jimmy Clark, Laguna Beach, Calif., were hot on Furgol's trail with opening round 66s.

In fourth place with 67 were Doug Ford of Harrison, N.Y.; Jim Turnesa of Briarcliff, N.Y., and Joe Kirkwood, Jr., Hollywood, Calif.

In a dangerous position was Bobby Locke, the South African money man whose 68 was good for seventh place. The five-man 69 group included Sammy Snead.

Giants Send Hartung Back To Minors

Once Brightest Rookie, Baseball Law Hurt Growth

PHOENIX, Ariz. —(AP)—The New York Giants announced the outright release today of Clint Hartung—sold for an undisclosed sum to Minneapolis—thus adding what may be a final chapter in the big league career of one of the game's most publicized rookies.

Pres. Horace Stoneham made the announcement which ended Hartung's five-year trial with the Giants.

Hartung stayed away from the ball park before yesterday's game. He checked out quietly from the Adams hotel.

"Just say," he said, with a half-hearted grin, "that I got a ticket."

Halled As Rookie

His departure was in sharp contrast to the spring of 1947 when the lean, 6-foot-4 1/2 Texan first checked into the Giants' camp here.

He was the rookie bet of the post-war era, the toast of the spring. A national magazine carried a lay-out on him. Thousands of words and hundreds of pictures told of young Hartung, then 24 years old.

His fame was based on exploits with an army team in Honolulu. He could pitch, he could hit, he could play the outfield. His pitching was no-hit. He hit three homers a game. He was young athletic and had starred in high school.

As it developed, Hartung was not ready for major league baseball.

Blame Baseball Law

And baseball law can be blamed as much as anything for his failure.

Farm Director Carl Hubbell explained it today. Said the old pitching star: "Every year since Clint came to us, we tried to get him waived out of the league. We wanted to farm him out for experience. We never could, until yesterday."

Hartung was acquired by the Giants while in service when they bought the Minneapolis club. He had played briefly, and not exceptionally well, just before going into the army around 1942, at Minneapolis.

His years on the Giant roster, while he was in the army, despite the fact he had never played in a big league park, or had even seen one, were counted, under baseball law. The Giants couldn't farm him out, for fear of losing him in the draft, or waive him out of the league. So Hartung, at a period when he might have been maturing, or developing, sat on the Giant bench for four seasons.

Began As Pitcher

He began as a pitcher. In 1947 he won nine and lost seven. Next year it was 8-8, then 9-11, in 1950 3-3.

He was shifted to outfield duty. His fielding was poor, but it has improved. He still "hits a good ball," as Stoneham pointed out, but not enough to displace such men as Monte Irvin, Willie Mays or Don Mueller.

HUGH'S VIEWS OF SPORTS

Despite a persistent clamoring from Mr. and Mrs. Joe Basketball Fan that the state tournament be moved to a larger stadium than Huff gym, the Illinois high school association has remained firm in its refusal to budge from Champaign.

"WE DON'T THINK it is advisable to move the tournament from the healthful atmosphere of the university campus," the fathers of the IHSA keep saying.

Or in other words, Chicago, with its 20,000-seat Chicago Stadium is too wicked a place to turn loose the hundreds of high school kids who get the bulk of the tickets each year.

WE ARE OF the firm conviction that kids bent on getting in trouble can find that trouble just about as easily on Champaign's Neil street as on Chicago's Clark street, but we will not press that point today.

Instead, we would like to present another side of the picture in Champaign—the ticket scalping side of the scene—as reported by Russ Kleese, sports editor of the Moline Dispatch. Here's what Russ has to say about the situation:

"True, there are no hootchy-kootchy dancers running loose in Champaign-Urbana. And the taverns are pretty strict about selling liquor to kids. But Champaign-Urbana does have a vile atmosphere of ticket scalping which is about as 'unhealthy' for kids as any other vice."

"We're not so naive as to think one can stamp out ticket-scalping with thousands eager to get into a 9,000-seat spot as Huff gym. And we're not too concerned with the professional ticket scalper or loddum leech who will always show up for such an attraction. The high school kids who engage in the 'quick-buck' business, because it's so easy to get rich in a hurry, are the ones being harmed and enticed into other illegal 'easy money' rackets."

"What burns us up is the way the I. H. S. A. university authorities and city cops can't see the miserable business. This year they did 'crack down' on the scalpers—the cops moved the ticket selling hustlers from in front of Huff gym across the street. Great!"

"High school kids were right in there with the pros asking—and getting—from \$10 to \$20 per session ticket. The situation degenerated so far two players of a semi-finalist team were seen scalping tickets the morning before the afternoon session in which they played. One youth bragged to us he made \$175 hawking tickets at the tournament."

"It can't be stamped out. But authorities could at least make it difficult to scalp tickets; make it so tough on kids that they'd be discouraged. Cops could pick up every scalper and slap 'em in jail, if only on a vagrancy charge, until the session is over. That would make their tickets valueless. Or with kids—pick 'em up, get their name and then report them back to school officials. That would also dry up their source of tickets."

"Our solutions may be all wet or unworkable. But at least we'd try to do something to stamp out the invitation to 'make a killing.' Most high schoolers go to the state tourney to cheer on their team and have a good time. But those who head for Champaign to get in on the scalping racket are getting too numerous for the I. H. S. A. and the University of Illinois to wink at scalping any longer."

GREEN GIANTS HONORED
CHICAGO, (AP)—American Legion merit medals for outstanding sportsmanship will be awarded to members of the Hebron's state prep basketball championship squad Wednesday. The awards will be presented in Chicago by the Cook county council of the American Legion. Hebron's coach, Russ Ahearn, and school superintendent, Paul Tigard, will be honored at a dinner for them and the players.

Seven Champs Return to News Relays

CHICAGO, (AP)—Seven defending champions will return to the Chicago Daily News relays tomorrow night, including miler Don Gehrman who has a new challenge.

In the absence of Fred Wilt, Gehrman's new shadow man is expected to be Lt. Warren Druetzel who rushed to a 4:08.2 last week in New York to shade Gehrman's best mile clocking of the season.

The relays are expected to draw a capacity 17,000 to Chicago Stadium.

Richards Leads
The Rev. Bob Richards will head a trio of 15-foot pole vaulters.

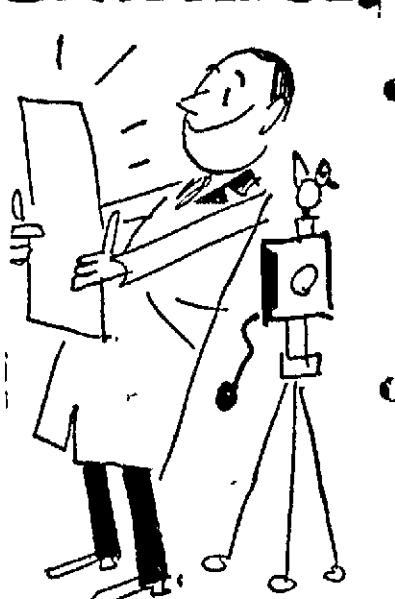

They will be taking off on the same 125-foot spruce runway that Cornelius Warmerdam used for his 15 foot 8 1/2 inch world mark. He set it in the same meet at the Stadium nine years ago.

Richards, likely preceded by another ex-Illinois vaulter, Don Laz, and Nebraska's Don Cooper, will try to break his own best mark of 15-4 1/2 set at the Stadium last year.

Other defending champions in addition to Richards and Gehrman are Harrison Dillard, unbeaten in the relays 60-yard high hurdles for the last five years; Jim Golliday, Northwestern rocket, who won the 1951 50-yard dash.

Whitfield Entered
Mal Whitfield, former Ohio State middle distance star, trying for a repeat in the "Hill 600"; Horace Ashenfelter, New York A.C., two mile champion; Jack Hentzman, former Bradley ace, in the high jump.

Navy Ready to Use First Of New Guided Missiles

WASHINGTON, (AP) — The navy is ready to operate for the first time three kinds of guided missiles that already are coming off production assembly lines.

Disclosure that the missiles will be in service with the fleet in a matter of months was made in testimony on the 52 billion dollar defense budget made public today by the house appropriations committee.

The published testimony of Navy Secretary Kimball, Adm. William M. Fechteler, chief of naval operations, and other officers contains these statements and disclosures:

Kimball said that by next year the navy will have seven different airplanes "superior" to the Russian MIG-15 jet fighter. All but two of these planes are now flying.

The navy (as were the other services) was ordered to prepare its \$13,200,000,000 budget on the assumption that the Korean fighting would be over by June 30, and that within six months thereafter the naval and marine forces over there will have been developed elsewhere.

The navy has not requested and does not want operating bases in Spain. Admiral Fechteler said the navy could use some ammunition and fuel storage dumps in Spain and anchorage rights in Spanish harbors, but no fleet operating bases.

Vice Adm. John H. Cassady, deputy chief of naval operations for air, named the new guided missiles that will go into operation this year as "Terrier I," "Sparrow 1," and "Regulus." The first two are for defense against attack planes. The last named was listed by the admiral as the first "offensive" guided missile. It will be used by ships against other ships or against short targets.

(Another admiral recently told a congressional group that the "Sparrow" could knock out an enemy plane three or four miles away.)

Mail Bomb To German Chancellor

MUNICH, GERMANY — (AP) — A police dragnet over West Germany today sought the unidentified man who tried to kill Chancellor Konrad Adenauer with a mailed bomb.

Brought to the police here by two suspicious teen-agers, the bomb exploded, killed the German expert trying to dismantle it and wounded two policemen and two reporters who were watching the dismantling attempt.

All Bavarian police stations were alerted to look for a man the two boys said handed them the package containing the bomb and asked them to mail it.

New 'Soup' Packs Punch, Tests Show

By ALTON L. BLAKESLEE Associated Press Science Reporter

NEW YORK — (AP) — You can gain a pound of weight a day on a new soup, which looks like black coffee.

It builds up human strength before or after operations.

It was the only food for 461 days for one woman while plastic surgery built her a new jaw and mouth, removed in a cancer operation. It kept another person alive for a year during a coma.

When laced with a little alcohol, a single quart of the soup supplies 1,000 calories, and proteins, minerals, sugar and salt.

You wouldn't want to drink it, for it would taste vile. It's fed, drops at a time, through a small tube going through the nose to the stomach.

Known as Prolac, the formula was developed by Dr. John Elliott, of Jackson Memorial hospital in Florida, and the Dade county (Fla.) Blood Bank, Inc. It's made by breaking down proteins in defatted milk, and adding minerals and other things.

The soup is being tested also at Columbia university's college of physicians and surgeons here.

HUKS KILLED MANILA, (AP) — The Defense department reported 11 Communist-led Huk killed in clashes with army units yesterday and today. Ten other Huk were listed as wounded, 20 captured and five surrendered.

FTC Warns Watch Firms to Halt Discrimination

WASHINGTON — (AP) — The Federal Trade Commission has ordered three large watch manufacturers to stop what it termed discrimination in granting allowances for advertising to their customers.

The orders were directed at the Elgin National Watch Co., Elgin, Ill.; The Gruen Watch Co., Cincinnati, O.; and the Bulova Watch Co., New York.

The companies may appeal to the courts from the orders issued against them.

The FTC found that Bulova and Elgin paid some of their customers for furnishing advertising services in connection with the sale of watches, and that Gruen paid some amounts to all its customers for advertising.

In all three cases, the commission said, the firms failed to make advertising allowances on proportionally equal terms to all their customers. It ruled this was a violation of the Robinson-Patman Anti-Discrimination Act.

Public Aid Rolls Climb

SPRINGFIELD, (AP) — Illinois Public Aid rolls rose 1.8 per cent in January over the previous month, the Illinois Public Aid Commission reported today.

The number of persons getting benefits last month totaled 272,764. This was 7.8 per cent below a year ago.

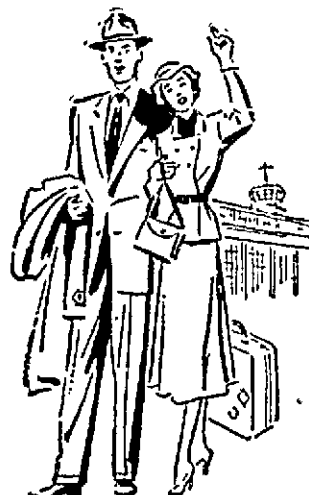

Payments in January amounted to \$11,362,166 down slightly from December but 6.2 per cent higher than January, 1951.

Garrett Keaster, IPAC executive secretary, said the January increase in the rolls over December resulted chiefly from more persons receiving general relief because of seasonal conditions and curtailment of outdoor employment. The relief cases totaled 67,043.

Nevada Abolishes Metal Licenses

CARSON CITY, NEV.—(AP)—Nevada's 1953 auto licenses will be neither plates nor tags. They'll be paper decals to be stuck on the windshields.

Ellis J. Polson, chief of motor vehicle registration, said a shortage of steel forced the change.

Motorists still will need their old plates, he added, because officers will not be able to read the small numbers on the three-inch decals at a distance.

NEW MINISTER

COLOMBO, Ceylon, (AP)—Cambridge-educated, cricket-loving Dudley Senanayake, 41, was sworn in last night as prime minister of Ceylon. He took over the mantle of his father, Don Stephen Senanayake, who died last Saturday after a fall from a bolting horse.

Boyle Thumbs Oddity Book For These...

By HAL BOYLE

NEW YORK —(AP)—A leaf from an oddity almanac:

Trying to find a place to park your car isn't the biggest drawback to living in a big city... Sinus trouble is... So says Dr. J. Thompson Stevens, a New York specialist... He estimates that sinus infections afflict four out of five people who live in towns of 25,000 or more population... No wonder the country smells nicer.

Speaking of smells, did you know perfumes once were ranked in value with gold?... If your wife would like to make her own perfume, there is a formula in the Bible for what came to be known as "The Holy Perfume"... The ingredients: Sweet spices, stacte, onycha, galbanum... But just try to get your neighborhood druggist to fill that prescription today.

Male versus female department: There really are only 15,000,000 licensed women automobile drivers in America... If the average male motorist (there are 45,000,000) thinks he has to dodge more than that number on an ordinary Sunday ride, it is just his imagination... Do women really drive better than men?... Well, the Standard Oil Company of New Jersey reports that surveys show women are less skillful but more careful behind the wheel.

Nature department: Someone

Boy's Ordeal In Pipe Not A Pipe Dream

NEW YORK —(AP)—It was no pipe dream. It was a nightmare for 15-year-old Richard Nash of the Bronx.

The boy, playing cops and robbers with chums yesterday near the Bronx river parkway, crawled into a 15-inch wide, 18-foot long sewer pipe.

Part-way through, he got stuck. Husky police couldn't get him out. Richard used up the oxygen at the end of the pipe and became unconscious.

Then the "thin man" entered the picture—and the pipe. He was Roy Riley, 28-year-old Negro construction worker. The thin-waisted Riley

has found out that the new chlorophyll-derivative deodorants will cure even dogs of body odor and halitosis... This is bad news for rabbits... Chlorophyll is found in green plants... And from now on near-sighted bunnies are likely to mistake a hunting dog for a four-legged lettuce patch... How long are we going to go on confusing the animal world?... We pause for reply.

Facts-and-figures-for people-who-like-to-win-barroom-b-e-t: Bet you didn't know that the world's tallest tree is a California Redwood 364 feet high... That there are 31 moons in the solar system... That most states don't have a specific law against cannibalism... But other statutes in force don't encourage it.

Baby condors remain in the nest six months before flying.

Bold Ideas make Hudson today's best car!

Idea! Give Hudson owners the most road-able cars ever built by putting Hudson's base frame outside the passenger compartment and recessing the floor down within the frame. Thus, Hudson "step-down" design permits lowering the entire car to give America's lowest center of gravity.

RESULT: A ride that's out of this world!

Idea! Bring Hudson owners the industry's most alert power. Step up compression with advanced, simplified design. Install oversize bearings, reinforced crankcase. Increase lubricating and cooling areas. Electronically balance engines after assembly.

RESULT: Performance Unlimited and stock-car championship for the Hudson Hornet!

Idea! Build Hudsons so they outlast any other car. Make Hudson's body and frame all in one steel Monobilt unit with 5,306 permanent welds. Use high-alloy metals throughout, such as chrome-alloy cylinder blocks—the toughest in the industry—for longest engine life.

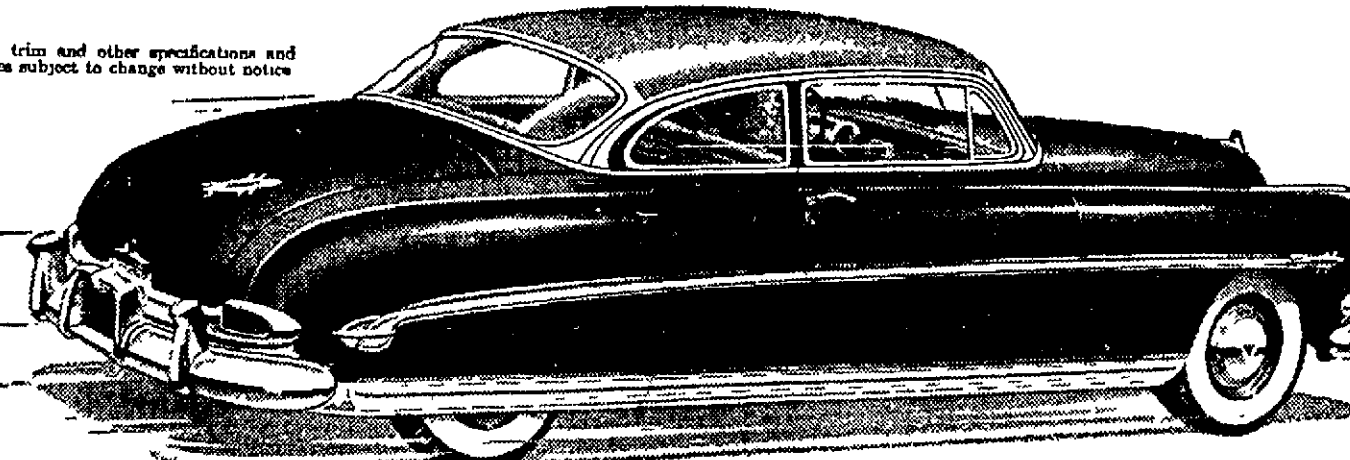

RESULT: Hudsons stay young longest.

Idea! Develop the newest in hardtop styling for sedans as well as coupes. Increase glass area to provide the open look of a hardtop. (No loss of rigidity, thanks to Hudson's Monobilt body-and-frame). Design gleaming bright-work and further enhance Hudson's brand-new styling.

RESULT: Hudson-Aire Hardtop Styling at standard sedan and coupe prices.

Idea! Provide safety beyond anything known in motor cars. Take Hudson's lowest center of gravity—a big safety factor—add box-section steel girders completely surrounding the passenger compartment, even outside the rear wheels. Add to this the industry's only hydraulic brakes with a reserve mechanical system on the same pedal.

RESULT: America's safest car!

Standard trim and other specifications and accessories subject to change without notice.

no miserable Mondays...

when you have Automatic Laundry Appliances!

You'll forget what "blue Monday" means... when you have automatic appliances to take the work out of washday! Then, you'll just toss clothes into the washer... and they'll be sudsed clean, rinsed, and spun. When the washer automatically turns itself off, you'll simply put the clothes into the dryer... where they'll fluff-dry automatically! And all that's left is sit-down ironing... finished in no time at all!

You see, no more up-to-your-elbows in hot water... no more lifting heavy, steaming clothes. And you won't have to worry about "good drying" weather... you'll just be a step away from the sunshine in your dryer. Best of all, you can wash any hour of the day or night you like... and never, never have that "blue Monday" feeling when you've finished!

Louise Trottnow submitted to surgery at KSB hospital, Dixon, Tuesday morning.

When 'Aunt Sylvia' Visits Eldena It's Not Small News

By MRS. LYLE SHIPPERT
Telegraph Correspondent

ELDENA—Mrs. Sylvia Erbes is visiting at the home of Mr. and Mrs. Al Bothe, near Eldena. Mrs. Erbes has been making her home with Mr. and Mrs. Myron Willey, Dixon, who are visiting their daughter, Marjorie, in Minnesota.

Just an item? Ah, no! Aunt Sylvia Erbes, well known around Eldena, used to live in the "house across the tracks," opposite the railroad depot. She was the local postmaster for many years—when the postoffice was a room adjoining her kitchen. Her husband, "Bill," grew flowers, berries and fruits in unbelievable quantity and quality for such limited space. Living with them were a nephew and a niece, Myron and Irma Willey.

Two decades have gone by since I first knew them, and many changes have taken place. A passenger train no longer comes through Eldena; only freight, express and coal cars. And it is no longer necessary for the postmaster to meet the mail train and hoist the bag of mail onto the hook of the moving train, come rain or shine; nor is the postoffice by the depot anymore.

Old Bill died years ago, the nephew and niece are married and have families, and the postoffice has been installed in a quonset building in a different part of town. Now Mrs. Kenneth Marshall is postmaster, assisted by her mother, Mrs. Mildred Lyle. The mail is picked up twice daily by the regular mail truck circuit driver for Dixon postoffice. And where once students went to Dixon or Amboy high schools by train, they now catch a school bus sent out by Unit District 272.

But as progress strides forward, memory trots at its heels. And old friends will be stopping by at the Al Bothe farm to see Aunt Sylvia. While they are there, Irma and Al will proudly show them their new ranch-style house being constructed on their farm and now nearing completion.

But that is a different story, of which you will hear more later.

BUSY BEES TO MEET

HARMON—The Marian Busy Bees 4-H club is scheduled to meet at 7:30 o'clock tonight in the Harold Peach residence.

Gilmore, Gary Gilmore, Carol Williams, Barbara Faulkner, Janice Carnahan, Jim Bradshaw, Kala Fassig, Nina Larson, Gene Walter, Larry Davis, Mr. and Mrs. John Eakle and Terry. Two out-of-town guests were Tanya Swanson and Jerry Dennis.

Mr. and Mrs. Charles Bauer entertained with a dinner and supper Sunday, Mr. and Mrs. Clement Faber, Mr. and Mrs. Maurice Faber and son, Paul, Mendota, Mrs. Louella Riley and David, LaMoille, Mr. and Mrs. Edward Floerschuetz and Mr. and Mrs. Albert Floerschuetz, Compton.

Mr. and Mrs. Harlow Olson and sons spent Saturday evening at the Ralph Gilmore home.

\$1,000 Profit Realized in Unusual Sale

ASHTON—An estimated \$1,200 was received in Ashton's auction sale Thursday afternoon to raise funds to buy uniforms for the high school band. About 400 persons attended.

The \$1,000 profit will be used to buy uniforms. Articles sold were donated at cost. More than 150 items, including farm equipment, merchandise and furniture, were sold.

Auctioneers were Alvin (Bill) Krug, assisted by Bert Vogeler. A highlight of the sale was bidding on a box of "woofle dust" auctioneered by Magician Ralph Pierce. Superintendent Paul Vauple bought it. Pierce gave a how-to-use demonstration of the mystic disappearing powers of "woofle dust."

Most stores closed for the sale, which ended about 5 o'clock. School was dismissed for the afternoon.

Public Party Held by Club At Nelson

NELSON—The Nelson community club sponsored a public card party Wednesday evening at the village hall. Five tables were in play.

Ladies first prize in pinocle was awarded to Mrs. Florence Heaton, Rock Falls. The men's prize was won by Hendy Dietz of Rock Falls. Ladies first prize in "500" was won by Mrs. L. C. Coppell, and the men's high prize went to Harry Pemrey. The door prize was won by Rollo Bunnell.

Those serving on the committee included Mrs. Bessie Miller, Mrs. Emma Onken, Mrs. Gertrude Thompson and Mrs. Flo Stitzel. Out-of-town guests were Mr. and Mrs. Henry Dietz, Mrs. Florence Heaton and Mrs. Mary Pertel, Rock Falls.

SPRING? YOU BET IT IS—Winter, full-fledged, holds sway outside this New York store window but it's not fooling the lady with the umbrella. She knows that when the new hats appear in the store windows, tulips and lilacs will soon appear in the gardens.

GRANDMA'S GOT IT!—Hollywood's youngest grandmother is the title claimed by pretty Patricia Bowers, right, 37-year-old wife of a casting executive and mother of two. Mrs. Bowers is perched alongside movie actress Piper Laurie, for whom she is a stand-in

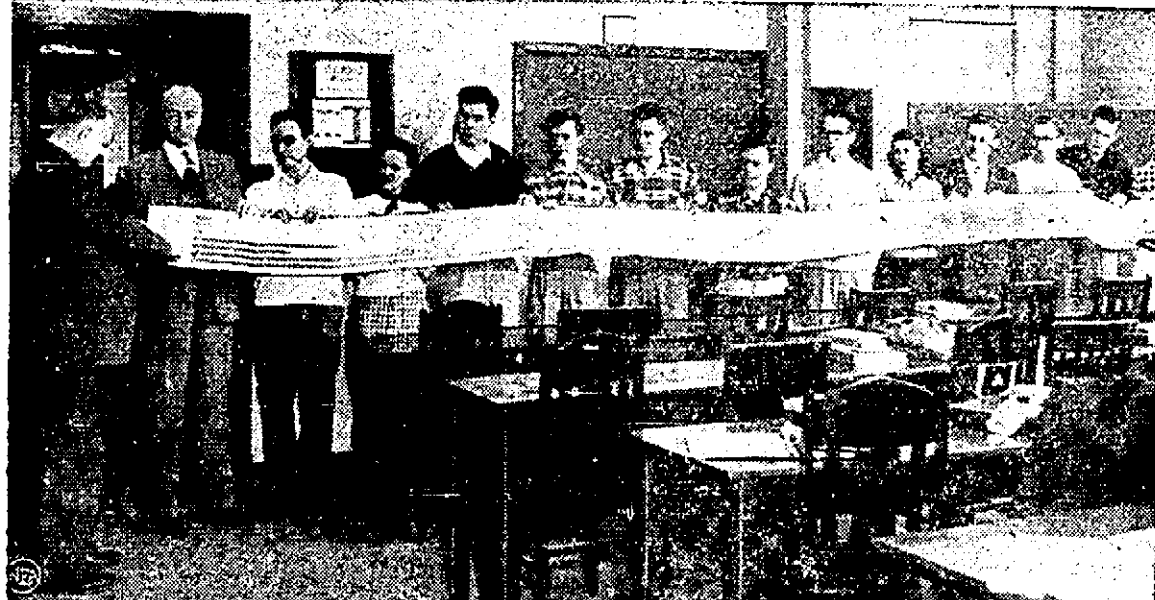

NEW WINGS FOR BRITAIN—The huge, new Britannia airliner takes shape at the Bristol Airplane Company's plant in Filton, England. First of 25 of the 107-passenger ships on order for British Airways, it will have a wingspan of 140 feet, will be 114 feet long, and 38 feet 8 inches high. Designed to cruise at 370-miles-per-hour the big ship will cost \$1,540,000.

FLYING WAREHOUSE—World's largest commercial cargo plane will resemble this preliminary sketch of Lockheed's projected giant transport. It will be designed to carry a payload of 36,300 pounds, cruise between 330 and 340 miles per hour, and approach 400 miles per hour with lighter loads. Two cargo doors allow simultaneous loading and unloading. It is hoped that the aircraft will operate at an all-time low cost for cargo planes of 5 cents per ton mile.

SOME MARKS TO LIVE UP TO—Wilfred James Cartier, 18, wearing his dad's jacket, is overwhelmed by the marks he'll have to live up to—the hashmarks acquired in 22 years of service with the Army by his father, M/Sgt. Wilfred Cartier, right, who recently witnessed swearing-in of his son. The elder Cartier, now a recruiting sergeant, plans to remain in uniform for at least 30 years.

LONG TALE OF WOE—Professor Myron H. Umbreit, left, and students of his business economy class at Chicago's Northwestern University examine a discouraging chart. It portrays the 257 billion dollar, national debt, and it takes 22-and-one-half feet of paper to do it. Attorney Holland F. Elahaven, second from left, displayed the tale of woe during observance of Government Economy Week.

NO STRINGS ATTACHED—In Berlin, Karl Baessler, a 37-year-old radio engineer, demonstrates the new portable piano, which he invented, to his wife. The instrument is played like a piano, up to five octaves. In place of strings, it has metal bars similar to those of a mouth organ. The vibrations are picked up and transformed into tones in a magnetic system and amplified. The "pianophon" weighs 25 pounds and is 16 inches wide and 36 inches long.

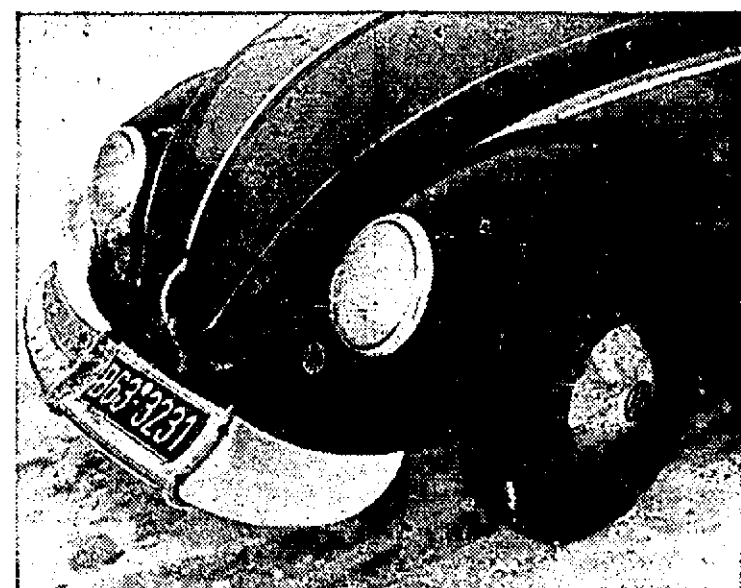

FRIEND WHO CAME TO DINNER—Dawn Snobek, 5, of Minneapolis, wistfully watches her lunch disappear as her friend, (name unknown), vacuums up everything in sight. Dawn asked her mother if she could bring a "little" friend in for lunch, but mother, wasn't expecting to put on the dog.

PIPES SKIRL FOR 2ND ARMY DIVISION—Sgt. Erick Bradford, right, gives Pfc. Harold D. Corbett pointers on piping as the 2nd Army Division, in Korea, reactivates its bagpipe band. Some Scots complained when the band chose the Royal Stewart tartan for its kilts, but the Yank pipers felt better when the MacLaine of Lochbuie, Chief of the Clans MacLaine, wrote to the commanding officer of the 2nd, from Durban, South Africa, giving permission for use of his tartan. The MacLaine chief said it is "a token of my appreciation of all the United States has done in the cause of world freedom."

PAINTING RESTORED—Nardo Di Cione's 14th-century masterpiece, "St. John the Baptist," is shown at the half-way point in the restoration process being applied to 14 Italian Renaissance paintings which will be placed on exhibit at the Yale Art Gallery, New Haven, Conn.

ROAD-HUGGING DEVICE—A former airplane maker in Munich, Germany, developed this "acloran," designed to keep the car glued to the road at high speeds. Using aerodynamic principles, the acloran, mounted where the front bumper used to be, causes air flowing over it at high speeds to add to front-end "weight" of the auto, keeping it stable at high speeds. Device sells for about \$25.

IKE HAS A VISITOR—Gen. Dwight Eisenhower rests an arm on the globe during an informal talk with the new U. S. ambassador to France, James C. Dunn, who visited SHAPE in Paris.

YOUNG UNCLE SAM—Bruce Bastian, 11, takes time from his kite flying in Chicago to look over a new picturization of Uncle Sam. "Uncle Sam, 1952" is the \$2000 prize-winning conception of Elliot Freeman of North Hollywood, Calif., who was one of 402 artists to submit entries in a contest sponsored by a Chicago community newspaper. The youthful "Uncle" wears a red-and-white-striped business suit, and a star-studded vest.

"I'M SCARED"—"Chatoune," two-year-old cat of Montmartre, Paris, is scared out of several of her nine lives following a pigeon-chasing spree that put her up a tree for four days.

DOWN TO EARTH—"Chatoune" is rescued by a park employee after being up a tree in Montmartre, Paris for four days. No more pigeon-chasing for Kitty.

SHE LIKES "TURKEY"—Little Ayla, a Korean refugee, really appreciates Turkey, particularly members of the 25th Division's Turkish unit in Korea. She stands with her new "father," Sgt. Baha Gugenich, in the chow line with other members of the unit, which adopted her.

Nelson Notes...

NELSON—Mr. and Mrs. Ralph Pritchard and family were callers Sunday at the home of his parents, Mr. and Mrs. Robert E. Pritchard, Milledgeville. They were supper guests at the home of his brother and sister-in-law, Mr. and Mrs. Claude Pritchard, Polo.

Five Abandoned Children Find Home With Aunt

BLUEFIELD, W. Va., (AP)—Coal Miner Kelly Hall's five children aren't abandoned any more.

For the time being, the youngsters have a home with an aunt in their native county of Tazewell, Va., and, to add to this, they were reunited, if only for a few moments, with their mother and father.

Hall, who left the children at a street corner here Tuesday, came back to see them yesterday at the Union Mission. Later the mother, Dorothy, also came to the home for a tearful reunion with the tots.

Then the children, aged nine months to eight years, left for Abies Valley, Ia., in custody of the aunt, Mrs. Fred Farmer. She has four children of her own but said she'd keep the other five until further plans can be made.

Left behind were Hall and his wife who faces charges of deserting the children.

Hall gave the children a penciled note to police when he put them out of his car here Tuesday. It said Mrs. Hall had run off March 20, that he had been unable to one else to do it and that Mrs.

FACES QUIZ—Former Internal Revenue Commissioner Joseph D. Nunan, Jr., will be called to testify publicly by House tax scandal investigators. Nunan, the government's chief tax collector from 1944 to mid-1947, recently has been quizzed in closed session.

Hall: "ort to be made to care for little kids who cry for her all the time."

When Mrs. Hall surrendered to police last night, she said she returned when she read about the children in a newspaper.

Rock River Life Underwriters Hold Luncheon Meeting

The Rock River Life Underwriters association held its March luncheon meeting at the Rainbow Inn Wednesday noon. President B. L. Frazer presiding.

Membership Chairman A. B. Whitmer and Clayton Schuneman, Sterling, reported the present membership at 40 and outlined plans for exceeding last year's all-time high of 44 members. At this time, the Rock River group has members in Dixon, Sterling, Rock Falls, Polo, Lee Center, Amboy, Lanark, Mt. Carroll, and Morrison, representing at least 18 different legal reserve life insurance companies.

The president announced completion of plans for a series of three institutional advertisements, featuring the emblem of the National Association of Life Underwriters, the first of which appears in today's Dixon Evening Telegraph.

Secretary Leonard Peterson, Sterling, announced progress toward incorporation of the local association in accordance with suggestion of state and national association headquarters.

The next meeting of the Rock River Life Underwriters will be in mid-April in Sterling, the date to be announced later.

GIVES THE SHIRT OFF HIS BACK—Rep. Oakley Hunter (Republican, Calif.) at left, pulls off his shirt to add to the pile of more than a hundred shirts, girdles and panties he has received in Washington as protest against high taxes. Doris Kasparian, Fresno, Calif., receives the shirt in the name of the taxpayers. The articles in the pile will be sent to the needy in Hunter's home district.

ENDS FAST
DURRAN, SOUTH AFRICA — (AP)—Manilal Gandhi drank a glass of fruit juice this morning, thus ending a 21-day fast in protest against the South African government's policy of race segregation. Manilal, 59, son of the late Mohandas K. Gandhi of India, lost 28 pounds.

LITTLE DOUBT
SUPREME HEADQUARTERS, ALLIED POWERS IN EUROPE— (AP)—Among Allied officers at SHAPE there is little doubt that their boss, Gen. Eisenhower, will submit his resignation shortly after his annual report is published next Wednesday. The general himself has said nothing of the sort.

LATEST PACKAGING MACHINE IN USE AT HEY BROTHERS

This is a picture of a completely automatic pint packaging ice cream machine. This machine is shown in operation with operator at left having just loaded a stack of unfolded pint cartons into the machine. The machine, completely actuated by the pressure of the ice cream flowing from the instant freezers in the rear of the picture, then opens the carton, folds the bottom, fills, then closes the top. No hand aid is required in this operation. Operator at right is loading sacks which contain one gallon of pints, then same are immediately

placed into hardening room for rapid hardening from a forced air velocity of 30 miles per hour and a temperature of 20 degrees below zero. This is the latest device now in use in packaging ice cream. This machine was on the drawing board for many years, and was perfected by a Rockford tool firm. This is another of the absolutely new and modern machines in use at Hey Brothers plant, and is one of the many reasons why Hey Brothers products continue to excel year in and year out.

OFF THE WATER-WAGON—Light touch to recent anti-UN
rioting by Italian Nationalists in Trieste happened when a demon-
strator laughingly took a ducking from a police water-wagon. Police
use their water "guns" to break up forbidden public demonstrations
when normal police methods fail.

HAIR-RAISING STORY—Robert Oats, 20-year-old Cree Indian of
Rocky Boy, Mont., displays souvenirs of his first haircut, which
he recently received when he was inducted into the Army, and
sent to Fort Lewis, Wash. His barber estimated that Oats has
saved \$170 or more in tonsorial fees over the years.

New Premier Of Tunisia Is 'Friendly'

TUNIS, Tunisia, (AP) — The Bey of Tunis today named a new premier regarded as friendly to France to succeed Mohammed Chenik, who was arrested by the French for his Nationalist activity.

The 71-year-old Bey, the country's nominal ruler, named Salah-Eddine Baccouche to replace Chenik. The new premier is a big Tunisian landowner and was premier of the country in 1949. He is regarded as a moderate in politics.

(In Paris, a high official of the French foreign ministry commented: "That is good news. Now France should be able to put into effect the reforms she proposed.")

The apparently conciliatory move by the Bey followed a day of ominous calm after the arrest of Chenik and three of his top ministers Wednesday on order of French Resident General Jean De Hautecloque, Tunisia's real ruler.

De Hautecloque had charged them with fostering nationalist riots and demonstrations — demanding more self-rule for Tunisia—which since mid-January have resulted in almost 100 deaths and numerous acts of sabotage.

Continue Case Against Four Safe Burglars

CHICAGO, (AP) — Burglary charges against four men accused of stealing a safe containing \$1,600 have been continued to April 15.

The \$2,000 bond of one of the defendants, Charles Kissinger, 37, Chicago, was revoked by Judge Thomas E. Kluczyński when he was informed by Kissinger's attorney that the defendant was out of town but would appear at the next hearing.

Judge Kluczyński issued an order for Kissinger's arrest.

The other defendants are Kenneth Humphrey, 18, of 815 W. Sixth St., Davenport, Ia., and Richard Washburn, 21, and Edward Fern, 20, both of Chicago.

Police said the safe was taken from the Abbot building maintenance corporation at 1306 N. LaSalle st., Jan. 20.

Bob Waterfield May Get Star's Role in Films

HOLLYWOOD, (AP)—Football star Bob Waterfield is about to invade the ranks of stardom in Hollywood movies, a field in which he was preceded by his wife, glamorous Jane Russell.

The Los Angeles Rams' quarterback is under contract to Columbia pictures. Sam Katzman, Columbia producer, says negotiations are under way for the rights to a well-known comic strip, and that if they are obtained, Waterfield will play the star role.
